THE PILSEN TAX INCREMENT FINANCING REDEVELOPMENT PROJECT AND PLAN

Adopted Plan: June 10, 1998

Amendment No. 1: November 12, 2003

Amendment No. 2: September 1, 2004

Amendment No. 3: October 26, 2022

Amendment No. 4: April 28, 2023

Revision No. 1: March 29, 2024

City of Chicago
Brandon Johnson, Mayor

Department of Planning and Development
Cierra Boatright, Commissioner

Prepared by
Johnson Research Group, Inc.
105 W. Madison Street, Suite 406
Chicago, Illinois 60602

EXECUTIVE SUMMARY

The Illinois General Assembly passed the Tax Increment Allocation Redevelopment Act, 65 ILCS 5/11-74.4-1 et seq., as amended (the "Act") to provide municipalities with the mechanism to address blighted conditions, encourage private investment and to restore and enhance the tax base through development and redevelopment of project areas. To induce redevelopment pursuant to the Act, the City of Chicago City Council adopted three ordinances on June 10, 1998 approving the Pilsen Tax Increment Financing Redevelopment Project and Plan (the "Original Plan"); designating the Pilsen Redevelopment Project Area (the "Original Project Area"); and adopting tax increment financing for the Original Project Area (the "Pilsen TIF").

The Original Plan was amended on November 12, 2003 ("Amendment No. 1"), on September 1, 2004 ("Amendment No. 2"), and on October 26, 2022 ("Amendment No. 3"). The Original Plan, as amended by Amendment No. 1, Amendment No. 2, and Amendment No. 3, is hereby referred to herein as the "Plan."

The Original Plan is being further amended to (i) amend the redevelopment project estimated costs, (ii) bring the Original Plan up to the current City ordinance and policy standards, and (iii) identify updates to the general land use plan and goals and objectives and (iv) expand the boundaries of the Original Project Area to include an additional 6,140 tax parcels ("PINs"). This area is generally bounded by 16th Street on the north; Western Avenue on the west, Coulter Street on the south; and Clinton Street on the east (the "Added Area") as described in more detail in the supplemental report entitled, Pilsen Added Area Tax Increment Financing Eligibility Study ("Added Area Eligibility Study"). The Added Area and the Original Project Area are referred to as the "Amended Project Area." As a whole, the Amended Project Area is generally bounded by 16th Street on the north, Clinton Street and the Chicago River on the east, the Stevenson Expressway and 33rd Street on the south, and Western Avenue on the west and encompasses 685.2 acres.

These changes, collectively, are encapsulated in this document, referred to as Amendment No. 4, and serve as a supplement to the Original Plan and subsequent amendments. In this document and in remaining portions of the Original Plan, the term "Plan," "Amended Plan" or "Amendment No. 4" may be used interchangeably and refer to the changes to date as reflected in this Amendment No. 4 document.

On and after November 1, 1999, no existing redevelopment plan may be amended if the redevelopment plan causes the displacement of residents from 10 or more inhabited residential units unless the municipality undertakes a housing impact study or certifies that such displacement will not result from the plan. The City hereby certifies that there will not be displacement of 10 or more inhabited units within the redevelopment project area. As such, a housing impact study is not required as part of Amendment No. 4.

The Plan summarizes the analyses and findings of the consultant's work, which, unless otherwise noted, is the responsibility of Johnson Research Group, Inc. (the "Consultant"). The City is entitled to rely on the findings and conclusions of this Plan in designating the Added Area as a redevelopment project area under the Act. The Consultant has prepared this Amendment No. 4 and the related supplemental Added Area Eligibility Study with the understanding that the City would rely: 1) on the findings and conclusions of Amendment No. 4 and the related Added Area Eligibility Study in proceeding with the expansion of the Original Project Area and the adoption and implementation of Amendment No. 4, and 2) on the fact that the Consultant has obtained the necessary information so that Amendment No. 4 and the related Added Area Eligibility Study will comply with the Act.

MODIFICATIONS TO THE PILSEN TAX INCREMENT FINANCING REDEVELOPMENT PROJECT AND PLAN

The changes to the Pilsen Tax Increment Financing Redevelopment Project and Plan are presented section by section and follow the format of the Original Plan. This Amendment No. 4 document serves as a supplement to the sections of the Original Plan that remain unchanged.

MODIFICATIONS TO APPENDICES

Exhibit I - Legal Description of Project Boundary- *deleted and replaced with the following*

Exhibit I – Legal Description: Amended Project Area

Exhibit II – Estimated Redevelopment Project Costs - *deleted and replaced with the following*

Exhibit II – Estimated Redevelopment Project Costs: Amendment No. 4

Exhibit III - 1996 Estimated EAV by Tax Parcel – *no changes*

Exhibit IV – Figures 4A-M: Land Acquisition by Block and Parcel Identification Number – *no changes*

Exhibit V – Pilsen Project Area Tax Increment Financing Eligibility Study - *no changes*

The following attachments are added at the end of the list of Appendices:

Exhibit VI – 2022 EAV by Tax Parcel: Added Area

Exhibit VII – Pilsen Added Area Tax Increment Financing Eligibility Study

I. INTRODUCTION

At the end of the Section I. Introduction and before Section I. A., insert the following:

The Added Area

The Added Area is an improved area which contains 5,125 buildings and 6,140 tax parcels within 167 full and partial tax blocks located north of the original TIF. The Added Area is predominantly a residential area but also contains commercial corridors and limited industrial areas. The residential areas are characterized by predominantly 2-, 3-, and 4-story multi-family properties interspersed with single-family buildings, churches, parks, and school buildings. Commercial corridors, which are in many cases the ground floor of mixed-use buildings, can be found along Halsted Street, 18th Street, Ashland Avenue, Blue Island Avenue, Cermak Road, and Western Avenue. Industrial areas are dispersed throughout the Added Area. Some of these industrial areas are located on 16th Street and Ashland Avenue; Blue Island Avenue; along Western Avenue and are found in small sites throughout the area.

In addition to the considerable physical assets of the Original Project Area, the Added Area has similar assets and the following additional features:

- The CTA provides rapid transit service with stations located within the Added Area. Pink Line rail station stops are 18th Street, Damen Avenue, and Western-Douglas.
- Eleven public schools including Juarez and –YCCS-Youth Connection Leadership Academy high schools, and Walsh, Jungman, Perez, Pilsen, Acero - De Las Casas, Cooper, Orozco, Ruiz, and Pickard elementary schools
- Four public parks are Barret (Charles) Park, Harrison Park, Throop Park, and Reyes (Guadalupe) Park.
- Additional major north-south arterials serving the area are Ashland Avenue, Western Avenue, Racine Avenue, Loomis Street, and Damen Avenue.
- With the addition of the Added Area, the Pilsen TIF benefits from the presence of multiple planning and economic incentive districts including Enterprise Zone #1, Pilsen Historic District, Pilsen Affordable Requirements Ordinance (ARO) District, and the Pilsen Planned Manufacturing District #11 as illustrated in **Figure 2. Planning Districts.**

The Added Area's various commercial corridors contain culturally distinct and unique retail and service-based businesses. The commercial districts are located along Halsted Street, 18th Street, Ashland Avenue, Blue Island Avenue, Cermak Road, and Western Avenue. Some commercial properties are underutilized and obsolete along key corridors. The conditions of the buildings and infrastructure need extensive repair and upgrades. It is important that these commercial corridors be included in the Added Area to encourage redevelopment and improvement that supports the well-being of the overall community.

The Added Area's strong residential districts are characterized by densely built, aging housing stock with some parcels overcrowded with secondary buildings. Over 80 percent of the building stock is over 35 years old and requires ongoing maintenance to keep up with normal deterioration causing numerous properties to be in various states of disrepair. Additionally, the current water and sewer infrastructure serving the area is insufficient due to increased demand and aging utility networks. It is vital that these residential areas are included in the Added Area to properly address development needs and improved infrastructure.

The overall characteristics of the Pilsen community include a rich cultural heritage of the working-class Latino population. From 1960 to 1970, Pilsen's Latino population doubled and has since become the majority population of the community. Within the past two decades, Pilsen's Latino population has declined significantly, while the white population in the area has increased. Simultaneously, property values and property taxes have increased rapidly in the area. Issues of housing displacement due to the population shift, new housing developments, increased housing costs, and limited affordable housing options, have been an increasing concern of longtime Pilsen residents.

Additionally, the COVID-19 pandemic intensified housing issues City-wide, but even more so in low-income communities of color. This has created increased housing costs, economic instability for families, and limited affordable housing options within the Pilsen community.

In subsection A. Pilsen Tax Increment Financing Redevelopment Project Area, after the section titled "The Project Area as a Whole", insert the following subsection:

The Added Area as a Whole

The Added Area in its entirety has not been subject to growth and development through investment by public and private enterprises. Evidence of this lack of growth and development is detailed in *Section VI* and summarized below.

- Numerous building show signs of deterioration, building code violations, structures below minimum code, and an overall depreciation of physical maintenance.
- With respect to primary and secondary building components, deterioration is present to a major extent in 155 of the 167 tax blocks or 93 percent of the blocks.
- From 2018 through November 2022, 3,114 violations were issued. Approximately 1,048 violations were deemed significant, citing needed repairs, mechanical issues, structural issues, pest infestations, and more. These violations affect 281 buildings in 125 of the 167 (75%) tax blocks.
- Most of the Added Area's water and sewer infrastructure needs to be repaired and replaced and has been noted on 158 (95%) of 167 tax blocks. Existing sewer and water supply lines throughout the City were largely put in place 50 to 100 years ago and many are undersized. These aging and undersized lines are obsolete by today's development standards and inadequate to accommodate new development.
- To a minor extent, functional obsolescence is present within the Added Area. Along commercial corridors, buildings are underutilized, vacant, or have been repurposed from commercial to residential use.

A comprehensive and area-wide effort will assist the City in promoting cohesive and inclusive development. The City believes that the Added Area should be revitalized on a coordinated and planned basis to ensure the preservation of community character, development of diverse housing options, and strategic economic development. A coordinated and comprehensive redevelopment effort will allow the City and other taxing districts to work cooperatively to prepare for future residential and commercial growth that may arise from new development and infrastructure improvements. Comprehensive redevelopment efforts will also encourage stronger commercial corridors, improved property maintenance, diverse housing options, maintained housing stock, coordinated residential areas, and productive industrial districts.

II. LEGAL DESCRIPTION AND PROJECT BOUNDARY

Delete Section II in its entirety and replace with the following:

The boundaries of the Amended Project Area have been drawn to include only those contiguous parcels of real property and improvements substantially benefited by the proposed Redevelopment Project to be undertaken as part of this Amended Plan No. 4. The boundaries of the Amended Project Area are shown in **Figure 1, Amended Project Area Boundary**, and are generally described below.

The Amended Project Area is generally bounded by 16th Street on the north, Clinton Street and the Chicago River on the east, the Stevenson Expressway and 33rd Street on the south, and Western Avenue on the west.

The Amended Project Area is legally described in **Exhibit I – Legal Description: Amended Project Area**.

III. ELIGIBILITY CONDITIONS

After subsection B. Commercial District, insert the following subsection:

C. Added Area

Based upon surveys, inspections and analyses of the Added area, the entire area qualifies as a “conservation area” within the requirements of the Act. Eight-two percent (82%) or more of the buildings within the Added Area have an age of 35 years or more. Additionally, the Added Area is characterized by the presence of a combination of three or more conservation factors listed in the Act, rendering the district detrimental to the public safety, health and welfare of the citizens of the City. Specifically,

- Of the 5,125 buildings within the 167 tax blocks, 4,206 (82%) are 35 years of age or older.
- Of the 13 factors set forth in the Act for conservation areas, four factors, including deterioration, inadequate utilities, excessive vacancies and structures below minimum code standards, are found to be present to a meaningful extent.
- These four factors are reasonably distributed throughout the Added Area.
- The Added Area as a whole is impacted by and shows the presence of these factors.
- The Added Area includes only real property and improvements thereon substantially benefited by the proposed redevelopment project improvements.

Rename subsection C. Surveys and Analyses Conducted to D. Surveys and Analysis Conducted.

After subsection D. Surveys and Analysis Conducted, insert the following:

Added Area

The conservation and blight factors found to be present in the Added Area are based on surveys and analyses conducted by the Consultants. The surveys and analyses conducted for the Added Area include:

1. Exterior survey of the condition and use of all buildings and sites;

2. Field survey of environmental conditions covering streets, sidewalks, curbs and gutters, lighting, traffic, parking facilities, landscaping, fences, and general property maintenance;
3. Analysis of the existing uses within the Added Area and their relationships to the surroundings;
4. Comparison of current land use to current zoning ordinance and the current zoning map;
5. Analysis of original platting and current parcel size and layout;
6. Analysis of vacant parcels and buildings;
7. Analysis of building floor area and site coverage;
8. Review of previously prepared plans, studies and data;
9. Analysis of City of Chicago building permit data for the period from January 2013 through November 2022 and building code violation data for the period from January 2018 through November 2022;
10. Analysis of storm, sanitary sewer lines and water supply lines within the Added Area via existing infrastructure maps provided by the City of Chicago's Department of Water Management;
11. Analysis of Cook County Assessor records for assessed valuations and equalization factors for tax parcels in the Added Area for assessment years 2016 to 2022; and
12. Review of Cook County Treasurer property tax payment records for collection years 2021 to 2023.

(Also, see Appendix – **Exhibit VII. Pilsen Added Area Tax Increment Financing Eligibility Study**).

IV. REDEVELOPMENT GOALS AND OBJECTIVES

Section IV is deleted in its entirety and replaced with the following:

The City recognizes the need for comprehensive and coordinated area-wide investment in new public and private improvements to ensure stability and successful redevelopment of the Amended Project Area and eliminate the conditions that qualified the area as a Conservation Area under the TIF Act. Redevelopment of the Amended Project Area will benefit the community and the City as a whole through improvements that emphasize housing affordability, sustainable business and retail development and manufacturing job growth.

This section identifies the goals and objectives adopted by the City for redevelopment of the Amended Project Area.

A. Redevelopment Goals

The goals for the Amended Plan are presented below.

1. Preserve and strengthen the unique physical features of the Pilsen Industrial Corridor, illustrated in Figure 2, to improve viability and foster new or continued manufacturing growth.

2. Promote industrial development that addresses the economic, environmental, social, cultural and health conditions of the Amended Project Area, its adjacent communities, and the City as whole.
3. Maintain and improve the freight and public transportation systems that serve industrial users.
4. Encourage continued utilization and rehabilitation of buildings or structures having a special historical, architectural, or cultural interest or importance to the community and City.
5. Preserve the affordability and character of housing.
6. Preserve the unique retail environment and neighborhood character.
7. Expand number and variety of recreational opportunities.

B. Redevelopment Objectives

The following objectives have been established in furtherance of these goals:

Land Use

- Maintain the Pilsen Industrial Corridor to attract job-intensive businesses.
- Maintain the current land uses in the residential and commercial areas.
- Increase the quantity of affordable housing through utilization of existing and new affordable housing programs and homeownership models that emphasizes homeownership education as well as property maintenance and preservation.
- Increase programs and funding support to maintain and improve existing naturally occurring affordable housing like 2-4 flats and smaller apartment buildings.
- Promote the development of new housing options located within the Pilsen and Little Village Affordable Requirement Ordinance (ARO) Pilot Area, detailed in Figure 2
- Increase outreach and education about tenant resources and homeownership programs and opportunities.
- Support zoning for corner retail establishments.
- Create and promote “identity” streets, featuring 18th Street as a premier Mexican shopping district.
- Facilitate and promote development activity and investment in Opportunity and Enterprise zones, illustrated in Figure 2
- Promote improvement and enhancement of Blue Island Avenue, Halsted Street, Cermak Road, and Ashland Avenue as retail and service corridors that serve and support nearby residential and employment areas.
- Facilitate the improvement and expansion of educational institutions, as needed, to appropriately serve the surrounding communities.
- Promote the development of shared open spaces within industrial developments, including courtyards, eating areas, recreational areas, etc.

- Create non-traditional open spaces, such as rails to trails projects, community gardens, pocket parks and public access points to the river and canal as part of new private developments.
- Beautify and enhance the river edge for habitat enhancement, where feasible.

Urban Design, Building and Site Development

- Support the reuse of vacant industrial buildings in serviceable condition for new business or industrial uses.
- Consider closing selected street segments in order to create larger building sites and enhance opportunities for new development.
- Promote landscaped transitional areas and attractive fencing to secure the periphery of the industrial district and reduce the adverse impact of industrial activities on adjacent residential neighborhoods.
- Preserve neighborhood character, including architectural style and scale of buildings.
- Maintain and preserve older residential, institutional, and commercial buildings with architectural or historic interest, especially properties located within the Pilsen Historic District, illustrated in Figure 2.
- Explore new and expanded historic designations to maintain existing buildings and provide additional financial resources for rehabilitation.
- Explore community support for Pedestrian Street designations along active commercial corridors to improve the pedestrian environment.
- Create new "gateway" areas, including landscaping and signage, at the major entry points to key commercial corridors.
- Promote the support, development, and creation of "public art" at selected locations and restore murals throughout Pilsen with community-led efforts, which has been a long-standing tradition of cultural expression in the Pilsen community.
- Create a "campus environment" that safely connects institutions on Western Ave.
- Evaluate all public and private projects on the basis of the five key themes of DPD's Design Excellence Working Group including Equity, Innovation, Sense of Place, Sustainability, and Communication.
- Ensure that all landscaping and design materials comply with the City's Landscape Ordinance or applicable Planned Development requirements.

Transportation, Circulation and Infrastructure

- Undertake public utility and infrastructure improvements that ensure safe and convenient access to and within the Industrial Corridor with sufficient capacity to serve existing, new and expanding industrial users; upgrade viaducts to maintain adequate clearances; and provide sufficient parking to meet the needs of the area.
- Provide an industrial street pattern that provides access, separation from incompatible land uses, and the ability to control security.
- Improve the condition of street and sidewalk surfaces, curbs and gutters throughout the area; consider special surface treatments in pedestrian shopping areas.

- Encourage parking, service and support facilities which can be shared by multiple industries; consolidate and redesign small, separate parking lots located within the same block.
- Prioritize pedestrian safety and experience through public infrastructure projects both small and large, including enhanced pedestrian crosswalks, new street trees, pedestrian-scale lighting and new street furniture.
- Create a comprehensive pedestrian and bicycle system of on-street and off-street routes that ensure safety and connectivity between neighborhoods, access to Canal Origins Park, the Canalport Riverwalk, and El Paseo Trail.
- Promote the development of river edge amenities to provide a continuous pedestrian and bicycle corridor along the Chicago River.

Equity, Diversity and Sustainability

- Incorporate sustainability best practices in new development to encourage a modern employment center.
- Encourage equity, diversity and resiliency practices in public and private projects that intentionally promote building wealth for historically marginalized communities.
- Reinforce partnerships between existing organizations and associations that serve and support local businesses, promote entrepreneurship, develop the local workforce, and strengthening the industrial corridor.
- Strengthen linkages between companies and job training/placement agencies and continue to target local residents for workforce development initiatives.
- Establish job readiness and job training programs to provide residents living in and around the Redevelopment Project Area with the skills necessary to secure jobs in the Redevelopment Project Area and adjacent redevelopment project areas.
- Secure commitments from employers in the Redevelopment Project Area and adjacent redevelopment project areas to interview graduates of the Redevelopment Project Area's job readiness and job training programs.

V. REDEVELOPMENT PROJECT

Section V. is deleted in its entirety and replaced with the following:

This section presents the Redevelopment Project anticipated to be undertaken by the City and by other public and private entities on behalf of the City in furtherance of this Redevelopment Plan. Multiple plans have been reviewed and form the basis for many of the recommendations presented in this Redevelopment Plan. This Amended Plan is consistent with the City's most current plans and policies including, Pilsen: A Center of Mexican Life (2006); Industrial Renaissance: Establishing a Creative Industries District, Cermak Road (2007); Little Village Quality of Life Plan (2013); Chicago Sustainable Industries (2013); Little Village Land Use Strategy (2016); and Pilsen and Little Village Action Plan (2018 Draft).

The Redevelopment Project described in this Redevelopment Plan and pursuant to the Act includes: a) overall redevelopment concept; b) the land use plan; c) a description of redevelopment improvements and activities; d) estimated redevelopment project costs; e) a description of sources of funds to pay estimated redevelopment project costs; f) a description

of obligations that may be issued; and g) identification of the most recent EAV of properties in the Project Area and an estimate of future EAV.

A. Overall Redevelopment Concept

The Amended Project Area includes two very different areas – an industrial area on the south and a residential neighborhood to the north. Both areas should be comprehensively improved and revitalized, leveraging their unique, physical assets to enhance the health and well-being of existing residents and businesses and fostering compatible new development that improves the economic, environmental, and social conditions of the community. The entire Amended Project Area should be marked by improvements in safety and infrastructure, retention and expansion of businesses and residents, and enhancement of the area's overall image and appearance. The Amended Project Area should have good accessibility and should be served by a street system and public transportation facilities that provide safe and convenient access to and circulation within the Amended Project Area.

The Industrial Area should be redeveloped as a cohesive and distinctive industrial, business and employment district. It should consist of industrial and business areas offering a range of site development opportunities; commercial areas that serve and support surrounding neighborhoods and employment centers; and a range of public facilities, open spaces and pedestrian amenities. The river's edge should be improved and enhanced as an open space amenity and pedestrian/bicycle corridor. The Amended Project Area should become one of the City's premier employment centers that will complement and enhance surrounding community areas.

The Residential Area should be redeveloped as a culturally distinct and cohesive business and residential district that focuses on economic development, cultural assets, workforce development, and housing preservation. It should consist of commercial areas providing retail and service-oriented businesses that maintain the neighborhood's current identity; housing areas that preserve affordability and increase housing options; connected transportation networks; and open space, public facilities, and pedestrian amenities with a full range of services.

The Redevelopment Plan recognizes and considers housing policies needed to address community concerns of affordability, gentrification and displacement. Plans within the residential area should preserve the neighborhood's charm and housing affordability. Newer housing developments should complement the current housing stock and provide affordable housing options that would not become a cost burden to long-time residents. Increasing the volume of affordable housing within the community is a priority recommendation for this Amended Plan.

Within the residential area, there are various commercial corridors with local retail and service-oriented businesses that serve the community and contribute significantly to neighborhood's cultural identity and economy. These commercial corridors, including 18th Street, Blue Island, Ashland Avenue, Cermak Road, and Halsted Street serve as a regional destination for uncommon, culturally-specific goods. This unique characteristic should be preserved within the landscape of redevelopment projects.

Open space, public facilities, and pedestrian amenities should serve as community connectors and enhance the recreational experience throughout the Amended Area. Upgrading current public facilities and creating non-traditional open spaces, such as the Paseo trail, should provide attractive outdoor opportunities.

B. Land Use Plan

The Land Use Plan highlights numerous opportunities for residential, industrial, and commercial improvement, enhancement, and new development within the Amended Project Area. The Plan is focused on preserving residential areas, improving affordable housing options, maintaining and enhancing sound and viable existing businesses, and promoting new sustainable industrial development within the Pilsen Industrial Corridor. **Figure 3. Land-Use Plan** presents the land uses that will be in effect upon the adoption of this Redevelopment Plan.

For the existing commercial corridors along Halsted Street, 18th Street, Ashland Avenue, Blue Island Avenue, Cermak Road, and Western Avenue, properties will be upgraded and celebrated as unique, local shopping and service areas that provide for the day-to-day needs of surrounding residents, employees, and business patrons.

Existing public and institutional uses will be maintained, enhanced, and upgraded as required. Throughout the Amended Project Area, land uses will be arranged and located to minimize conflicts between different land use activities.

The Land Use Plan designated five general land use categories within the Amended Project Area, as described below:

- **Industrial:** The Pilsen Industrial Corridor encompasses a large portion of the southern part of the Amended Project Area that includes a concentration of manufacturing, assembly, distribution, warehousing, office, and research and development facilities. Limited commercial development which serves and supports the industrial area will be permitted in selected locations. Within the industrial district, sound existing industries will be retained and enhanced, and large-scale, planned new industrial development will be promoted on vacant, severely deteriorated, and underutilized properties.
- **Commercial:** Commercial land uses are located along high traffic corridors and serve as a buffer between industrial land uses and residential neighborhood. These land uses are most appropriate along Cermak Road, Western Avenue and portions of Blue Island Avenue. The commercial area is suitable for a mix of shopper's goods and retail, convenience retail, personal and business services, financial institutions, professional offices, light industrial, public and institutional uses. Limited residential development will also be permitted in selected blocks, and residential units above the first floor will be encouraged.
- **Residential:** Residential uses are located throughout the northern half of the Amended Project area and are characterized by densely built homes, predominantly 2-, 3-, and 4-story multi-family properties interspersed with single-family buildings. Limited commercial and industrial development will be permitted within residential areas. Within the residential areas, emphasis will be placed on improving and maintaining existing housing quality and ensuring affordability for current residents, developing and enhancing diverse housing options for various income ranges, and redevelopment protections. New residential development should be compatible with the current neighborhood's character and scale.
- **Mixed-Use:** The mixed-use areas encompass several blocks within commercial corridors and the southwest portion of the Amended Project Area. Since these parcels

lie on the perimeter of industrial corridors and residential areas, it is recommended that commercial uses be allowed, as well as industrial on the southwest portion of the Amended Area. Within the mixed uses areas, emphasis will be placed on finding uses that are compatible with and supportive of the neighboring residential uses.

- **Public/Institutional:** The public/institutional areas encompass several existing public schools, parks and churches located within the Amended Project Area. These uses include Benito Juarez High School, Orozco Community Academy, Harrison Park, Dvorak Park, and more. In general, these areas will be maintained and enhanced for public and institutional use. Existing residential uses will be allowed to remain, provided they are compatible with and do not adversely impact the enhancement of public facilities as focal points for the surrounding neighborhoods.

C. Redevelopment Improvements and Activities

The City proposes to achieve its redevelopment goals and objectives for the Amended Project Area through the use of public financing techniques including, but not limited to, tax increment financing, to undertake some or all of the activities and improvements authorized under the Act, including the activities and improvements described below. The City also maintains the flexibility to undertake additional activities and improvements authorized under the Act, if the need for activities or improvements change as redevelopment occurs in the Project Area.

The City may enter into redevelopment agreements or intergovernmental agreements with private or public entities to construct, rehabilitate, renovate or restore private or public improvements on one or several parcels (collectively referred to as Redevelopment Projects). Redevelopment agreements may contain terms and provisions that are more specific than the general principles set forth in this Redevelopment Plan and which include affordable housing requirements as described below.

The City requires that developers who receive TIF assistance for market-rate housing set aside 20 percent of the units to meet affordability criteria established by the City's Department of Planning and Development or any successor agency. Generally, this means the affordable for-sale units should be priced at a level that is affordable to persons earning no more than 100 percent of the area median income, and affordable rental units should be affordable to persons earning no more than 60 percent of the area median income. From time to time, the City changes the affordability requirements and thresholds, and developers seeking TIF assistance or zoning changes will be required to comply with the City's affordability requirements in force at the time of commencing their project.

1. Property Assembly

To meet the goals and objectives of this Plan, the City may acquire and assemble property throughout the Project Area. Land assemblage by the City may be by purchase, exchange, donation, lease, eminent domain, or through the Tax Reactivation Program and may be for the purpose of (a) sale, lease or conveyance to private developers, or (b) sale, lease, conveyance or dedication for the construction of public improvements or facilities. Furthermore, the City may require written redevelopment agreements with developers before acquiring any properties. As appropriate, the City may devote acquired property to temporary uses until such property is scheduled for disposition and development.

In connection with the City exercising its power to acquire real property, including the exercise of the power of eminent domain, under the Act in implementing the Plan, the City

will follow its customary procedures of having each such acquisition recommended by the Community Development Commission (or any successor commission) and authorized by the City Council of the City. Acquisition of such real property as may be authorized by the City Council does not constitute a change in the nature of this Plan.

2. Relocation

Relocation assistance may be provided to facilitate redevelopment of portions of the Amended Project Area and to meet other City objectives. Business or households legally occupying properties to be acquired by the City may be provided with relocation advisory and financial assistance as determined by the City.

3. Provision of Public Works or Improvements

The City may provide (or assist other public bodies in providing) public improvements and facilities that are necessary to service the Project Area in accordance with this Redevelopment Plan and the comprehensive plan for development of the City as a whole. Public improvements and facilities may include, but are not limited to, the following:

a) *Streets and Utilities*

A range of individual roadway, utility and related improvement projects, from repair and resurfacing to major construction or reconstruction, may be undertaken.

b) *Parks and Open Space*

Improvements to existing or future parks, open spaces and public plazas may be provided, including the construction of pedestrian walkways, stairways, lighting, landscaping and general beautification improvements may be provided for the use of the general public.

c) *Transportation Infrastructure*

Improvements and/or expansion of existing or future CTA Rapid Transit Stations and bus stops in the Redevelopment Project Area may be provided to support the increased demand resulting from future development within the Redevelopment Project Area. Enhancements to or expansion of the Paseo trail system, on-street bicycle path system, and bicycle stations may be provided to increase transportation options and recreational opportunities to, from and within the community.

4. Rehabilitation of Existing Buildings

The City will encourage the rehabilitation of public and private buildings that are basically sound and/or historically or architecturally significant. This includes properties individually designated as Chicago Landmarks, contributing properties to Chicago Landmark Districts, properties individually listed to the National Register of Historic Places, contributing properties to National Register of Historic Places-listed historic districts, and properties identified as either "orange" or "red" in the Chicago Historic Resources Survey.

5. Job Training and Related Educational Programs

Programs designed to increase the skills of the labor force that would take advantage of the employment opportunities within the Project Area may be implemented.

6. Taxing Districts Capital Costs

The City may reimburse all or a portion of the costs incurred by certain taxing districts in the furtherance of the objectives of this Redevelopment Plan.

7. Interest Subsidies

Funds may be provided to developers for a portion of interest costs incurred by a developer related to the construction, renovation or rehabilitation of a redevelopment project, subject to the limitations outlined in the next section.

8. Affordable Housing

Funds may be provided to developers for up to 50 percent of the cost of construction, renovation or rehabilitation of all low- and very low-income housing units (for ownership or rental) as defined in Section 3 of the Illinois Affordable Housing Act.

9. Analysis, Administration, Studies, Surveys, Legal, etc.

Under contracts that will run for three years or less (excluding contracts for architectural and engineering services which are not subject to such time limits) the City and/or private developers may undertake or engage professional consultants, engineers, architects, attorneys, etc. to conduct various analyses, studies, surveys, administration or legal services to establish, implement and manage this Amended Plan.

D. Redevelopment Project Costs

The various redevelopment expenditures that are eligible for payment or reimbursement under the Act are reviewed below. Following this review is a list of estimated redevelopment project costs that are deemed to be necessary to implement this Amended Plan (the "Redevelopment Project Costs.")

In the event the Act is further amended after the date of the approval of this Amended Plan by the City Council of Chicago to (a) include new eligible redevelopment project costs, or (b) expand the scope or increase the amount of existing eligible redevelopment project costs (such as, for example, by increasing the amount of incurred interest costs that may be paid under 65 ILCS 5/11-74.4-3(q)(11)), this Amended Plan shall be deemed to incorporate such additional, expanded or increased eligible costs as Redevelopment Project Costs under the Amended Plan, to the extent permitted by the Act. In the event of such amendment(s) to the Act, the City may add any new eligible redevelopment project costs as a line item in Amended Exhibit II or otherwise adjust the line items in Amended Exhibit II without further amendment to this Amended Plan, to the extent permitted by the Act. In no instance, however, shall such additions or adjustments result in any increase in the total Redevelopment Project Costs without a further amendment to this Amended Plan.

1. Eligible Redevelopment Costs

Redevelopment project costs include the sum total of all reasonable or necessary costs incurred, estimated to be incurred, or incidental to this Amended Plan pursuant to the Act. Such costs may include, without limitation, the following:

- a) Costs of studies; surveys, development of plans and specifications, implementation and administration of the redevelopment plan including but not limited to, staff and professional service costs for architectural, engineering, legal, financial, planning or other services (excluding lobbying expenses), provided that no charges for professional services are based on a percentage of the tax increment collected;
- b) The costs of marketing sites within the Project Area to prospective businesses, developers and investors;

- c) Property assembly costs, including but not limited to, acquisition of land and other property, real or personal, or rights or interests therein, demolition of buildings, site preparation, site improvements that serve as an engineered barrier addressing ground level or below ground environmental contamination, including, but not limited to parking lots and other concrete or asphalt barriers, and the clearing and grading of land;
- d) Costs of rehabilitation, reconstruction or repair or remodeling of existing public or private buildings, fixtures, and leasehold improvements; and the costs of replacing an existing public building if pursuant to the implementation of a redevelopment project the existing public building is to be demolished to use the site for private investment or devoted to a different use requiring private investment; including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification;
- e) Costs of the construction of public works or improvements including any direct or indirect costs relating to Green Globes or LEED certified construction elements or construction elements with an equivalent certification subject to the limitations in Section 11-74.4-3(q)(4) of the Act;
- f) Costs of job training and retraining projects including the cost of "welfare to work" programs implemented by businesses located within the Project Area;
- g) Financing costs including, but not limited to, all necessary and incidental expenses related to the issuance of obligations and which may include payment of interest on any obligations issued thereunder including interest accruing during the estimated period of construction of any redevelopment project for which such obligations are issued and for a period not exceeding 36 months following completion and including reasonable reserves related thereto;
- h) To the extent the City by written agreement accepts and approves the same, all or a portion of a taxing district's capital costs resulting from the redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the redevelopment plan and project;
- i) An elementary, secondary, or unit school district's increased costs attributable to assisted housing units will be reimbursed as provided in the Act;
- j) Relocation costs to the extent that the City determines that relocation costs shall be paid or is required to make payment of relocation costs by federal or state law or by Section 74.4-3(n)(7) of the Act (see Section V.C.2 above);
- k) Payment in lieu of taxes, as defined in the Act;
- l) Costs of job training, retraining, advanced vocational education or career education, including but not limited to, courses in occupational, semi-technical or technical fields leading directly to employment, incurred by one or more taxing districts, provided that such costs: (i) are related to the establishment and maintenance of additional job training, advanced vocational education or career education programs for persons employed or to be employed by employers located in the Project Area; and (ii) when incurred by a taxing district or taxing districts other than the City, are set forth in a written agreement by or among the City and the taxing district or taxing districts, which agreement describes the program to be

undertaken including but not limited to, the number of employees to be trained, a description of the training and services to be provided, the number and type of positions available or to be available, itemized costs of the program and sources of funds to pay for the same, and the term of the agreement. Such costs include, specifically, the payment by community college districts of costs pursuant to Sections 3-37, 3-38, 3-40, and 3-40.1 of the Public Community College Act, 110 ILCS 805/3-37, 805/3-38, 805/3-40 and 805/3-40.1, and by school districts of costs pursuant to Sections 10-22.20a and 10-23.3a of the School Code, 105 ILCS 5/10-22.20a and 5/10-23.3a;

- m) Interest costs incurred by a redeveloper related to the construction, renovation or rehabilitation of a redevelopment project provided that:
 - 1. such costs are to be paid directly from the special tax allocation fund established pursuant to the Act;
 - 2. such payments in any one year may not exceed 30 percent of the annual interest costs incurred by the redeveloper with regard to the redevelopment project during that year;
 - 3. if there are not sufficient funds available in the special tax allocation fund to make the payment pursuant to this provision, then the amounts so due shall accrue and be payable when sufficient funds are available in the special tax allocation fund;
 - 4. the total of such interest payments paid pursuant to the Act may not exceed 30 percent of the total: (i) cost paid or incurred by the redeveloper for such redevelopment project, plus (ii) redevelopment project costs excluding any property assembly costs and any relocation costs incurred by the City pursuant to the Act; and
 - 5. The cost limits set forth in paragraphs 2 and 4 above shall be modified to permit payment of up to 75 percent of the interest cost incurred by a redeveloper for the financing of rehabilitated or new housing units for low-income households and very low-income households, as defined in Section 3 of the Illinois Affordable Housing Act.
- n) Instead of the eligible costs provided for in (m) 2, 4 and 5 above, the City may pay up to 50 percent of the cost of construction, renovation and/or rehabilitation of all low- and very low-income housing units (for ownership or rental) as defined in Section 3 of the Illinois Affordable Housing Act. If the units are part of a residential redevelopment project that includes units not affordable to low- and very low-income households, only the low- and very low-income units shall be eligible for benefits under the Act;
- o) The cost of daycare services for children of employees from low-income families working for businesses located within the Project Area and all or a portion of the cost of operation of day care centers established by Project Area businesses to serve employees from low-income families working in businesses located in the Project Area. For the purposes of this paragraph, "low-income families" means families whose annual income does not exceed 80 percent of the City, county or regional median income as determined from time to time by the United States Department of Housing and Urban Development;

- p) Unless explicitly provided in the Act, the cost of construction of new privately-owned buildings shall not be an eligible redevelopment project cost;
- q) If a special service area has been established pursuant to the Special Service Area Tax Act, 35 ILCS 235/0.01 et. seq. then any tax increment revenues derived from the tax imposed pursuant to the Special Service Area Tax Act may be used within the Project Area for the purposes permitted by the Special Service Area Tax Act as well as the purposes permitted by the Act.

E. Sources of Funds to Pay Redevelopment Project Costs

Funds necessary to pay for Redevelopment Project Costs and secure municipal obligations issued for such costs are to be derived primarily from Incremental Property Taxes. Other sources of funds which may be used to pay for Redevelopment Project Costs or secure municipal obligations are land disposition proceeds, state and federal grants, investment income, private financing and other legally permissible funds the City may deem appropriate. The City may incur redevelopment project costs which are paid for from funds of the City other than incremental taxes, and the City may then be reimbursed from such costs from incremental taxes. Also, the City may permit the utilization of guarantees, deposits and other forms of security made available by private sector developers. Additionally, the City may utilize revenues, other than State sales tax increment revenues, received under the Act from one redevelopment project area for eligible costs in another redevelopment project area that is either contiguous to, or is separated only by a public right-of-way from, the redevelopment project area from which the revenues are received.

The Amended Project Area may be contiguous to or separated by only a public right-of-way from other redevelopment project areas created under the Act. The City may utilize net incremental property taxes received from the Project Area to pay eligible redevelopment project costs, or obligations issued to pay such costs, in other contiguous redevelopment project areas or project areas separated only by a public right-of-way, and vice versa. The amount of revenue from the Project Area, made available to support such contiguous redevelopment project areas, or those separated only by a public right-of-way, when added to all amounts used to pay eligible Redevelopment Project Costs within the Project Area, shall not at any time exceed the total Redevelopment Project Costs described in this Plan.

The Project Area may become contiguous to, or be separated only by a public right-of-way from, redevelopment project areas created under the Industrial Jobs Recovery Law (65 ILCS 5/11-74.6-1, et seq.). If the City finds that the goals, objectives and financial success of such contiguous redevelopment project areas or those separated only by a public right-of-way are interdependent with those of the Project Area, the City may determine that it is in the best interests of the City and the furtherance of the purposes of the Plan that net revenues from the Project Area be made available to support any such redevelopment project areas, and vice versa. The City therefore proposes to utilize net incremental revenues received from the Project Area to pay eligible redevelopment project costs (which are eligible under the Industrial Jobs Recovery Law referred to above) in any such areas and vice versa. Such revenues may be transferred or loaned between the Project Area and such areas. The amount of revenue from the Project Area so made available, when added to all amounts used to pay eligible Redevelopment Project Costs within the Project Area or other areas as described in the preceding paragraph, shall not at any time exceed the total Redevelopment Project Costs described in Amended Exhibit II of this Amended Plan.

F. Issuance of Obligations

The City may issue obligations secured by Incremental Property Taxes pursuant to Section 11-74.4-7 of the Act. To enhance the security of a municipal obligation, the City may pledge its full faith and credit through the issuance of general obligations bonds. Additionally, the City may provide other legally permissible credit enhancements to any obligations issued pursuant to the Act.

The redevelopment project shall be completed, and all obligations issued to finance redevelopment costs shall be retired, no later than December 31 of the year in which the payment to the City treasurer as provided in the Act is to be made with respect to ad valorem taxes levied in the thirty-fifth calendar year following the year in which the ordinance approving the Project Area is adopted. Also, the final maturity date of any such obligations which are issued may not be later than 20 years from their respective dates of issue. One or more series of obligations may be sold at one or more times in order to implement this Amended Plan. Obligations may be issued on a parity or subordinated basis.

In addition to paying Redevelopment Project Costs, Incremental Property Taxes may be used for the scheduled retirement of obligations, mandatory or optional redemptions, establishment of debt service reserves and bond sinking funds. To the extent that Incremental Property Taxes are not needed for these purposes, and are not otherwise required, pledged, earmarked or otherwise designated for the payment of Redevelopment Project Costs, any excess Incremental Property Taxes shall then become available for distribution annually to taxing districts having jurisdiction over the Project Area in the manner provided by the Act.

G. Valuation of the Amended Project Area

1. Most Recent EAV of Properties in the Amended Project Area

The purpose of identifying the most recent equalized assessed valuation ("EAV") of the Added Area is to provide an estimate of the initial EAV which the Cook County Clerk will certify for the purpose of annually calculating the incremental EAV and incremental property taxes of the Amended Project Area.

Original Area. According to the Cook County Clerk, the Certified Initial EAV (1996 tax year) of the Original Project Area is \$111,394,217.

Added Area. The 2022 EAV of all taxable parcels in the Added Area is \$667,211,208. This total EAV amount, by PIN, is summarized in Exhibit VI 2022 EAV by Tax Parcel: Added Area. The EAV is subject to verification by the Cook County Clerk. After verification, the final figure shall be certified by the Cook County Clerk and shall become the Certified Initial EAV from which all incremental property taxes in the Added Area will be calculated by Cook County. The Plan has utilized the EAVs for the 2022 tax year. If the 2023 EAV shall become available prior to the date of the adoption of the Plan by the City Council, the City may update the Plan by replacing the 2022 EAV with the 2023 EAV.

Amended Project Area. The estimated total Initial EAV of the Amended Project Area is \$800,443,831.

2. Anticipated Equalized Assessed Valuation

As of the 2022 tax year, the EAV of the Original Project Area is \$627,306,219. With the addition of the Added Area as identified above, the 2022 EAV of the Amended Project Area is \$1,294,517,427.

By tax year 2033 (collection year 2034) and following the substantial completion of the Redevelopment Project, the EAV of the Amended Project Area is estimated at approximately \$2,072,000,000. The estimate is based on several assumptions, including 1) redevelopment of vacant and underutilized areas within the Amended Project Area will occur in a timely manner; 2) an estimated annual inflation rate in EAV of 4 percent through 2033, realized in triennial reassessment years only; and 3) the most recent state equalization factor of 2.9237 (2022 value) is used in all years to calculate estimated EAV.

VI. LACK OF GROWTH AND DEVELOPMENT THROUGH INVESTMENT BY PRIVATE ENTERPRISE

After the four bullets under Section VI. subheading titled “Lack of Investment and Growth by Private Enterprise”, insert the following:

Added Area

As described in Section III of this Amended Plan, the Added Area as a whole is adversely impacted by the meaningful presence of several conservation and blight factors, and these factors are reasonably distributed throughout the Added Area.

Overall Assessment of Added Area

- The entire Added Area is characterized by aging structures buildings. Eighty-two percent (82%) of the buildings in the Added Area are 35 years or older, many of which require significant investment to maintain or upgrade.
- Deterioration is present in 93 percent of Added Area tax blocks, with 2,826 buildings classified as deteriorated.
- A total of 3,114 building code violations were issued by the City of Chicago between 2018 to November 2022. Of these violations, 1,048 violations were deemed significant by violation type, which includes violations for needed repairs, mechanical issues, pest infestation, structural issues, and more. These violations affect 281 buildings in 125 of the 167 tax blocks.
- Water and sewer atlases for the Added Area indicate that many of the existing lines have already exceeded or will soon exceed their intended life of approximately 100 years. Many of these lines were laid prior to the land uses they serve currently. Over 94% of the sewer lines in the Added Area were placed in service between 1886 and 1922 (from 93 to 129 years old), serving 158 of the 167 blocks.
- The total population of Pilsen declined by an estimated 11,242 residents from 2000 to the period of 2014-2018; Pilsen's Latino population declined by 14,875 in that same period¹.
- Cost-burdened renters (household that pay more than 30% of their household income on rent) increased by 11.6% from 2000 to 2014-2018².
- Pilsen has roughly 1 acre of open space per 1,000 residents. The City of Chicago suggests 2 acres per 1,000 residents and Chicago Metropolitan Agency for Planning (regional planning agency) recommends 4 acres per 1,000 residents.

¹ Pilsen Quality of Life Plan, May 2020 Addendum

² Ibid

VII. FINANCIAL IMPACT

After the third paragraph in this section, insert the following:

The Act requires an assessment of any financial impact of the Amended Project Area on, or any increased demand for services from, any taxing district affected by the Plan and a description of any program to address such financial impacts or increased demand. The City intends to monitor development in the Amended Project Area and with the cooperation of the other affected taxing districts will attempt to ensure that any increased needs are addressed in connection with any particular development.

VIII. DEMAND ON TAXING DISTRICT SERVICES

Paragraphs six and seven of this Section are deleted and replaced with the following five paragraphs:

City of Chicago Library Fund. General responsibilities of the Library Fund include the provision, maintenance and operation of the City's library facilities. There are no public library facilities within the Project Area.

Board of Education of the City of Chicago. General responsibilities of the Board of Education include the provision, maintenance and operation of educational facilities and the provision of educational services for kindergarten through twelfth grade. There are 11 public school facilities located within the Amended Project Area as illustrated in **Figure 4. Community Facilities.**

Chicago Park District and Chicago Park District Aquarium & Museum Bonds. The Park District is responsible for the provision, maintenance and operation of park and recreational facilities throughout the City and for the provision of recreation programs. There are 11 public parks within the Amended Project Area including the Canalport Riverwalk, as illustrated in **Figure 4. Community Facilities.**

Bronzeville Expanded Mental Health Services Program Governing Commission (BEMHSP). The BEMHSP is authorized by the Community Expanded Mental Health Services Act, approved by referendum in 2020, to expand access to and to increase the quality of mental health services available to residents in this service area. No BEMHSP facilities are located in the Amended Project Area.

All public facilities located within the Amended Project Area are identified in **Figure 4. Community Facilities.**

The tenth paragraph of this Section VIII is deleted.

IX. CONFORMITY OF THE REDEVELOPMENT PLAN FOR THE PROJECT AREA TO LAND USES APPROVED BY THE PLANNING COMMISSION OF THE CITY

No changes.

X. PHASING AND SCHEDULING

No changes.

XI. PROVISIONS FOR AMENDING THIS REDEVELOPMENT PLAN

No changes.

XII. COMMITMENT TO FAIR EMPLOYMENT PRACTICES AND AFFIRMATIVE ACTION PLAN

Replace the text in the section with the following:

The City is committed to and will affirmatively implement the following principles with respect to this Plan:

- A) The assurance of equal opportunity in all personnel and employment actions, with respect to the Redevelopment Project, including, but not limited to hiring, training, transfer, promotion, discipline, fringe benefits, salary, employment working conditions, termination, etc., without regard to race, color, sex, age, religion, disability, national origin, ancestry, sexual orientation, marital status, parental status, military discharge status, source of income, or housing status.
- B) Redevelopers must meet the City's standards for participation of 26 percent Minority Business Enterprises and 6 percent Woman Business Enterprises and the City Resident Construction Worker Employment Requirement as required in redevelopment agreements.
- C) This commitment to affirmative action and nondiscrimination will ensure that all members of the protected groups are sought out to compete for all job openings and promotional opportunities.
- D) Redevelopers will meet City standards for any applicable prevailing wage rate as ascertained by the Illinois Department of Labor to all project employees.

The City shall have the right in its sole discretion to exempt certain small businesses, residential property owners and developers from the above.

Changes to select maps originally included in the Original Plan are indicated in italics and noted below each original. The Amended Plan No. 4 figures are found on the following pages.

Legal Description: Amended Project Area

PILSEN TIF AMENDMENT NO. 4
AMENDED PROJECT AREA LEGAL DESCRIPTION

THAT PART OF SECTIONS 19, 20, 21, 28, 29, 30 AND 31, TOWNSHIP 39 NORTH, RANGE 14 EAST OF THE THIRD PRINCIPAL MERIDIAN, IN THE CITY OF CHICAGO, COOK COUNTY ILLINOIS BOUNDED AND DESCRIBED AS FOLLOWS:

BEGINNING AT THE POINT OF INTERSECTION OF THE SOUTHWESTERLY EXTENSION OF THE SOUTHEASTERLY LINE OF BROSS AVENUE AND THE WEST LINE OF THE WEST HALF OF THE NORTHWEST QUARTER OF SAID SECTION 31;

THENCE NORTH ALONG SAID WEST LINE OF THE WEST HALF OF THE NORTHWEST QUARTER OF SECTION 31 AND THE WEST LINE OF THE WEST HALF OF THE SOUTHWEST QUARTER OF SECTION 30 AND THE WEST LINE OF THE WEST HALF OF THE NORTHWEST QUARTER OF SECTION 30 TO THE SOUTHWESTERLY EXTENSION OF THE NORTHWESTERLY LINE OF THE ALLEY LYING NORTHWESTERLY OF BLUE ISLAND AVENUE;

THENCE NORTHEASTERLY ALONG SAID SOUTHWESTERLY EXTENSION OF THE NORTHWESTERLY LINE OF THE ALLEY LYING NORTHWESTERLY OF BLUE ISLAND AVENUE TO THE EAST LINE OF WESTERN AVENUE AS WIDENED;

THENCE NORTH ALONG THE EAST LINE OF WESTERN AVENUE AS WIDENED TO A POINT OF INTERSECTION WITH THE NORTH LINE OF CERMAK ROAD BEING IN THE WEST HALF OF THE SOUTHWEST QUARTER OF SECTION 19 AFORESAID;

THENCE CONTINUING ALONG THE EAST LINE OF WESTERN AVENUE AS WIDENED TO A POINT ON THE WEST LINE OF LOT 26 IN BLOCK 3 IN W.F. JOHNSTON'S SUBDIVISION OF THE NORTH HALF OF THE WEST HALF OF THE SOUTHWEST QUARTER OF SAID SECTION 19, SAID POINT BEING AN INTERSECTION WITH THE SOUTHERLY LINE OF ANGLED 18TH STREET AS DEDICATED BY DOCUMENT 4459768, SAID POINT IS APPROXIMATELY 26.24 FEET NORTH OF THE SOUTHWEST CORNER OF SAID LOT 26;

THENCE NORTHEASTERLY ALONG THE SOUTHERLY LINE OF 18TH STREET AS DEDICATED BY DOCUMENT 4459768 TO AN INTERSECTION WITH THE SOUTH LINE OF 18TH STREET ALSO BEING THE NORTH LINE OF BLOCK 3 IN W.F. JOHNSTON'S SUBDIVISION AFORESAID;

THENCE EAST ALONG THE SOUTH LINE OF 18TH STREET TO THE EAST LINE OF LEAVITT STREET;

THENCE NORTH ALONG THE EAST LINE OF LEAVITT STREET TO THE NORTHWEST CORNER OF LOT 26 IN EVANS' SUBDIVISION OF PART OF THE SOUTH HALF OF BLOCK 38 OF SUBDIVISION OF SECTION 19 AFORESAID;

THENCE EAST ALONG THE NORTH LINE OF LOTS 26, 27 AND 34 AND ITS EASTERLY EXTENSION TO A POINT ON THE WEST LINE OF LOT 37 IN EVANS' SUBDIVISION AFORESAID;

THENCE NORTH ALONG THE WEST LINE OF LOT 37 IN EVANS' SUBDIVISION AFORESAID TO THE NORTHWEST CORNER OF LOT 35 IN EVANS' SUBDIVISION AFORESAID;

THENCE EAST ALONG THE NORTH LINE OF LOT 35 TO THE NORTHEAST CORNER OF LOT 35 IN EVANS' SUBDIVISION AFORESAID, ALSO BEING THE WEST LINE OF HOYNE AVENUE;

THENCE SOUTH ALONG THE WEST LINE OF HOYNE AVENUE TO A POINT OF INTERSECTION WITH THE WESTERLY EXTENSION OF THE SOUTH LINE OF 17TH STREET;

THENCE EAST ALONG THE WESTERLY EXTENSION AND THE SOUTH LINE OF 17TH STREET TO A POINT OF INTERSECTION WITH THE SOUTHERLY EXTENSION OF THE WEST LINE OF LOT 38 IN THE NEWBERRY ESTATE SUBDIVISION OF BLOCK 36 IN SUBDIVISION OF SECTION 19 AFORESAID;

THENCE NORTH ALONG THE SOUTHERLY EXTENSION AND THE WEST LINE OF LOT 38 TO THE NORTHWEST CORNER OF LOT 38 IN THE NEWBERRY ESTATE SUBDIVISION AFORESAID, ALSO BEING THE SOUTH LINE OF AN ALLEY BEING NORTH OF 17TH STREET;

THENCE EAST ALONG THE SOUTH LINE OF AN ALLEY BEING NORTH OF 17TH STREET TO A POINT OF INTERSECTION WITH THE EAST LINE OF WOOD STREET;

THENCE NORTH ALONG THE EAST LINE OF WOOD STREET TO THE SOUTH LINE OF 16TH STREET;

THENCE EAST ALONG THE SOUTH LINE OF 16TH STREET TO THE EAST LINE OF ASHLAND AVENUE;

THENCE NORTH ALONG THE EAST LINE OF ASHLAND AVENUE TO THE NORTH LINE OF 16TH STREET;

THENCE EAST ALONG THE NORTH LINE OF 16TH STREET CROSSING THE NORTHWEST QUARTER AND THE NORTHEAST QUARTER OF SAID SECTION 20 AND CONTINUING ACROSS THE NORTHWEST QUARTER AND INTO THE NORTHEAST QUARTER OF SAID SECTION 21 TO THE NORTHEASTERLY LINE OF JEFFERSON STREET;

THENCE SOUTH ALONG THE SAID EAST LINE OF JEFFERSON STREET TO THE NORTH LINE OF LOT 14 IN C.J. HULL'S SUBDIVISION OF LOT 2 ON BLOCK 44 OF CANAL TRUSTEES SUBDIVISION, SAID NORTH LINE OF LOT 14 LINE ALSO BEING THE SOUTH LINE OF 16TH STREET;

THEN EAST ALONG SAID SOUTH LINE OF 16TH STREET TO THE WESTERLY CHANNEL LINE OF THE SOUTH BRANCH OF THE CHICAGO RIVER AS DEFINED IN THE ORDINANCE FOR ALTERING THE CHANNEL OF THE SOUTH BRANCH OF THE CHICAGO RIVER PASSED APRIL 13, 1926;

THENCE SOUTHERLY ALONG THE WESTERLY CHANNEL LINE OF THE SOUTH BRANCH OF THE CHICAGO RIVER AS DEFINED IN THE ORDINANCE FOR ALTERING THE CHANNEL OF THE SOUTH BRANCH OF THE CHICAGO RIVER PASSED APRIL 13, 1926, TO THE NORTHERLY EXTENSION OF THE WEST LINE OF LOT 2 IN CANAL TRUSTEES' NEW SUBDIVISION OF BLOCKS IN THE EAST FRACTIONAL QUARTER OF SECTION 21 AFORESAID LYING EAST OF THE SOUTH BRANCH OF THE CHICAGO RIVER, SAID WEST LINE OF LOT 2 BEING ALSO THE EAST LINE OF STEWART AVENUE;

THENCE SOUTH ALONG SAID EAST LINE OF STEWART AVENUE TO THE SOUTH LINE OF CERMAK ROAD;

THENCE WEST ALONG THE SOUTH LINE OF CERMAK ROAD TO THE EAST LINE OF STEWART AVENUE;

THENCE SOUTH ALONG SAID EAST LINE OF STEWART AVENUE TO THE SOUTHEASTERLY LINE OF ARCHER AVENUE;

THENCE SOUTHWEST ALONG SAID SOUTHEASTERLY LINE OF ARCHER AVENUE TO THE EAST LINE OF GREEN STREET;

THENCE SOUTH ALONG SAID EAST LINE GREEN STREET TO THE EASTERLY EXTENSION OF THE NORTH LINE OF LOT 4 IN HEALY BROTHERS SUBDIVISION OF PARTS OF LOTS 1 AND 2 OF BLOCK 24 IN CANAL TRUSTEES' SUBDIVISION OF BLOCKS IN THE SOUTH FRACTIONAL HALF OF SECTION 29 AFORESAID, THE EASTERLY EXTENSION OF THE NORTH LINE OF LOT 4 IN HEALY BROTHERS SUBDIVISION BEING A LINE 150 FEET NORTH OF THE NORTH LINE OF 27TH STREET;

THENCE WEST ALONG SAID EASTERLY EXTENSION OF THE NORTH LINE OF LOT 4 IN HEALY BROTHERS SUBDIVISION AND ALONG THE NORTH LINE OF SAID LOT 4 IN HEALY BROTHERS SUBDIVISION TO THE WEST LINE OF SAID LOT 4, SAID WEST LINE BEING ALSO THE EAST LINE OF THE ALLEY WEST OF GREEN STREET;

THENCE SOUTH ALONG SAID EAST LINE OF THE ALLEY WEST OF GREEN STREET TO THE EASTERLY EXTENSION OF THE NORTH LINE OF THE ALLEY NORTH OF AND ADJOINING LOTS 17, 18, 19, AND 20 IN THE SUBDIVISION OF SUB-LOT 2 IN HEALY BROTHERS SUBDIVISION;

THENCE WEST ALONG SAID EASTERLY EXTENSION AND THE NORTH ALLEY LINE AND THE WESTERLY EXTENSION THEREOF TO THE WEST LINE OF PEORIA STREET;

THENCE NORTH ALONG SAID WEST LINE OF PEORIA STREET TO THE NORTH LINE OF LOT 1 IN RICHLAND GARDENS III, SAID NORTH LINE OF LOT 1 BEING ALSO THE SOUTH LINE OF THE ALLEY NORTH OF 27TH STREET;

THENCE WEST ALONG SAID SOUTH ALLEY LINE TO THE NORTHEAST LINE OF SENOUR AVENUE (FORMERLY KNOWN AS QUARRY STREET);

THENCE SOUTHEAST ALONG SAID NORTHEAST LINE OF SENOUR AVENUE TO THE NORTH LINE OF 27TH STREET;

THENCE EAST ALONG SAID NORTH LINE OF 27TH STREET TO THE EAST LINE OF HALSTED STREET;

THENCE SOUTH ALONG SAID EAST LINE OF HALSTED STREET TO THE EASTERLY EXTENSION OF THE SOUTH LINE OF 29TH STREET;

THENCE WEST ALONG SAID EASTERLY EXTENSION OF THE SOUTH LINE OF 29TH STREET AND ALONG THE SOUTH LINE OF SAID 29TH STREET TO THE SOUTHEASTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF POPLAR AVENUE;

THENCE NORTHWEST ALONG SAID SOUTHEASTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF POPLAR AVENUE AND ALONG THE SOUTHWESTERLY LINE OF POPLAR AVENUE TO THE NORTHWESTERLY LINE OF LOT 67 IN COMMISSIONER'S SUBDIVISION OF LOT 9 IN BLOCK 24 IN THE CANAL TRUSTEES' SUBDIVISION OF BLOCKS IN THE SOUTH FRACTIONAL HALF OF SECTION 29 AFORESAID;

THENCE SOUTHWEST ALONG SAID NORTHWESTERLY LINE OF LOT 67 IN COMMISSIONER'S SUBDIVISION AND THE SOUTHWESTERLY EXTENSION THEREOF TO THE NORTHEASTERLY LINE OF LOTS 18, 19, 24, 25, 30, 31, 36, 37, 42, 43, 48 AND 49, IN THE SUBDIVISION BY THE EXECUTOR OF THE ESTATE OF PETER QUINN, DECEASED, OF LOTS 6 (EXCEPT THE EAST 1 ACRE) AND ALL OF LOT 7 IN BLOCK 24 IN CANAL TRUSTEES' SUBDIVISION, SAID NORTHEASTERLY LINE BEING ALSO THE SOUTHWESTERLY LINE OF THE ALLEY NORTHEASTERLY OF QUINN STREET;

THENCE NORTHWESTERLY ALONG SAID SOUTHWESTERLY LINE OF SAID ALLEY, TO THE NORTHWESTERLY LINE OF SAID LOT 18, SAID NORTHWESTERLY LINE BEING ALSO THE SOUTHEASTERLY LINE OF THE ALLEY SOUTHEASTERLY OF ARCHER AVENUE;

THENCE SOUTHWEST ALONG SAID NORTHWESTERLY LINE OF SAID LOT 18 AND THE SOUTHWESTERLY EXTENSION THEREOF TO THE SOUTHWESTERLY LINE OF QUINN STREET;

THENCE NORTHWEST ALONG SAID SOUTHWESTERLY LINE OF QUINN STREET TO THE NORTHEASTERLY LINE OF ARCHER AVENUE;

THENCE SOUTHWEST ALONG SAID NORTHEASTERLY LINE OF ARCHER AVENUE TO THE SOUTHWESTERLY LINE OF THROOP STREET;

THENCE NORTHWEST ALONG SAID SOUTHWESTERLY LINE OF THROOP STREET TO THE SOUTHWESTERLY EXTENSION OF THE NORTHWESTERLY LINE OF HILLOCK AVENUE;

THENCE NORTHEAST ALONG SAID SOUTHWESTERLY EXTENSION OF THE NORTHWESTERLY LINE OF HILLOCK AVENUE AND THE NORTHWESTERLY LINE OF HILLOCK AVENUE TO THE NORTHWESTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 8 IN MAHER'S SUBDIVISION OF LOT 1 AND 4 IN BLOCK 22 IN CANAL TRUSTEES' SUBDIVISION OF BLOCKS IN THE SOUTH FRACTIONAL HALF OF SECTION 29 AFORESAID;

THENCE SOUTHEAST ALONG SAID NORTHWESTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 8 IN MAHER'S SUBDIVISION AND THE SOUTHWESTERLY LINE OF LOT 8 IN MAHER'S SUBDIVISION TO THE SOUTHEAST LINE OF SAID LOT 8, SAID SOUTHEASTERLY LINE OF LOT 8 BEING ALSO THE NORTHWESTERLY LINE OF THE ALLEY SOUTHEASTERLY OF HILLOCK AVENUE;

THENCE NORTHEAST ALONG SAID NORTHWESTERLY ALLEY LINE TO THE SOUTHWESTERLY

LINE OF MARY STREET;

THENCE NORTHWEST ALONG SAID SOUTHWESTERLY LINE OF MARY STREET TO THE NORTHEASTERLY EXTENSION OF THE NORTHWESTERLY LINE OF HILLOCK AVENUE;

THENCE SOUTHWEST ALONG SAID NORTHEASTERLY EXTENSION OF THE NORTHWESTERLY LINE OF HILLOCK AVENUE TO THE NORTHEASTERLY LINE OF LOT 1 IN E. B. WARD'S SUBDIVISION OF LOT 8 OF BLOCKS 3 AND 4 OF CANAL TRUSTEES' SUBDIVISION OF BLOCKS IN SOUTH FRACTIONAL HALF OF SECTION 29 AFORESAID;

THENCE NORTHWEST ALONG SAID NORTHEASTERLY LINE OF LOT 1 IN E. B. WARD'S SUBDIVISION TO THE SOUTH LINE OF 25TH STREET;

THENCE WEST ALONG SAID SOUTH LINE OF 25TH STREET TO THE NORTHEASTERLY EXTENSION OF THE SOUTHEASTERLY LINE OF ELEANOR STREET;

THENCE SOUTHWEST ALONG SAID NORTHEASTERLY EXTENSION OF THE SOUTHEASTERLY LINE OF ELEANOR STREET AND THE SOUTHEASTERLY LINE OF ELEANOR STREET TO THE NORTHEASTERLY LINE OF FULLER STREET;

THENCE SOUTHEAST ALONG SAID NORTHEASTERLY LINE OF FULLER STREET TO THE NORTHWESTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 11 IN THE SUBDIVISION OF LOTS 2 AND 5 IN BLOCK 18 IN CANAL TRUSTEES' SUBDIVISION OF THE BLOCKS IN THE SOUTH FRACTIONAL SECTION 29 AFORESAID, THE SOUTHWESTERLY LINE OF LOT 11 BEING ALSO THE NORTHEASTERLY LINE OF THE ALLEY SOUTHWEST OF GRADY COURT;

THENCE SOUTHEAST ALONG SAID NORTHWESTERLY EXTENSION OF THE SOUTHWESTERLY LINE OF LOT 11 AND THE NORTHEASTERLY LINE OF THE ALLEY SOUTHWESTERLY OF GRADY COURT TO THE NORTH LINE OF THAT PART OF THE ALLEY VACATED BY ORDINANCE PASSED JULY 21, 1967;

THENCE SOUTHWEST ALONG SAID NORTHWEST LINE OF SAID VACATED ALLEY TO THE CENTER LINE OF SAID VACATED ALLEY;

THENCE SOUTHWEST ALONG SAID CENTER LINE OF THE VACATED ALLEY TO THE NORTHWESTERLY LINE OF THE RAILROAD RIGHT OF WAY OF THE ILLINOIS CENTRAL RAILROAD;

THENCE SOUTHWEST ALONG SAID NORTHWEST LINE OF THE RAILROAD RIGHT OF WAY TO THE WEST LINE OF ASHLAND AVENUE;

THENCE CONTINUING SOUTHWEST ALONG THE NORTHWEST LINE OF THE RAILROAD RIGHT OF WAY OF THE GULF, MOBILE & OHIO RAILROAD TO THE NORTH LINE OF 33RD STREET;

THENCE SOUTH ALONG A LINE PERPENDICULAR TO THE NORTH LINE OF 33RD STREET TO THE SOUTH LINE OF 33RD STREET;

THENCE WEST ALONG SAID SOUTH LINE OF 33RD STREET TO THE SOUTHERLY EXTENSION OF THE WEST LINE OF DAMEN AVENUE;

THENCE NORTH ALONG SAID SOUTHERLY EXTENSION OF THE WEST LINE OF DAMEN AVENUE AND THE WEST LINE OF DAMEN AVENUE TO THE SOUTH LINE OF 32ND STREET;

THENCE WEST ALONG SAID SOUTH LINE OF 32ND STREET TO THE SOUTHEASTERLY LINE OF BROSS AVENUE;

THENCE SOUTHWEST ALONG SAID SOUTHEASTERLY LINE OF BROSS AVENUE TO THE PLACE OF

Exhibit II

Estimated Redevelopment Project Costs: Amendment Plan No. 4

Eligible Expense	Estimated Cost
Analysis, Administration, Studies, Surveys, Legal, Marketing, etc.	\$25,000,000
Property Assembly including Acquisition, Site Preparation and Demolition, Environmental Remediation	\$180,000,000
Rehabilitation of Existing Buildings, Fixtures and Leasehold Improvements, Affordable Housing Construction and Rehabilitation Costs	\$200,000,000
Public Works & Improvements, including streets and utilities, transit infrastructure, parks and open space, public facilities (schools and other public facilities) ^[1]	\$440,000,000
Relocation Costs	\$10,000,000
Job Training, Retraining, Welfare-to-Work	\$50,000,000
Day Care Services	\$5,000,000
Interest Subsidy	\$40,000,000
TOTAL REDEVELOPMENT COSTS ^{[2] [3]}	\$950,000,000 ^[4]

^[1] This category may also include paying for or reimbursing (i) an elementary, secondary or unit school district's increased costs attributed to assisted housing units, and (ii) capital costs of taxing districts impacted by the redevelopment of the Project Area. As permitted by the Act, to the extent the City by written agreement accepts and approves the same, the City may pay, or reimburse all, or a portion of a taxing district's capital costs resulting from a redevelopment project necessarily incurred or to be incurred within a taxing district in furtherance of the objectives of the Amended Plan No. 4.

^[2] Total Redevelopment Project Costs represent an upper limit on expenditures that are to be funded using tax increment revenues and exclude any additional financing costs, including any interest expense, capitalized interest and costs associated with optional redemptions. These costs are subject to prevailing market conditions and are in addition to Total Redevelopment Project Costs. Within this limit, adjustments may be made in line items without amendment to this Plan, to the extent permitted by the Act.

^[3] The amount of the Total Redevelopment Project Costs that can be incurred in the Project Area will be reduced by the amount of redevelopment project costs incurred in contiguous redevelopment project areas, or those separated from the Project Area only by a public right-of-way, that are permitted under the Act to be paid, and are paid, from incremental property taxes generated in the Project Area, but will not be reduced by the amount of redevelopment project costs incurred in the Project Area which are paid from incremental property taxes generated in contiguous redevelopment project areas or those separated from the Project Area only by a public right-of-way.

^[4] All costs are in 2023 dollars and may be increased by five percent (5%) after adjusting for inflation reflected in the Consumer Price Index (CPI) for All Urban Consumers for All Items for the Chicago-Gary-Kenosha, IL-IN-WI CMSA, published by the U.S. Department of Labor.

Additional funding from other sources such as federal, state, county, or local grant funds may be utilized to supplement the City's ability to finance Redevelopment Project Costs identified above.

INTRODUCTION

On June 10, 1998, the Chicago City Council adopted the Pilsen Tax Increment Financing Redevelopment Project and Plan ("Pilsen TIF"). The Pilsen TIF encompasses an irregularly shaped area generally bounded by Blue Island Avenue, Cullerton Avenue, and 16th Street on the north, Stewart Avenue and the Chicago River on the east, the Stevenson Expressway and 33rd Street on the south, and Western Avenue on the west (the "Original Area"). As of 2023, the Pilsen TIF has helped empower local initiatives and community-led development, including school improvements to Benito Juarez High School, Whittier Elementary and Perez Elementary schools; improvements at Dvorak and Palmisano parks; construction of Casa Queretaro, a 45-unit affordable housing development at 16th and Damen; and the construction of a 436,000 square foot warehouse and distribution space for the International Produce Market. Infrastructure and industrial development needs are still needed in the Original Area and the surrounding areas. Additionally, the COVID-19 pandemic slowed construction projects, negatively impacted the real estate market, and disrupted economic development throughout the city. In an effort to deter the negative impacts, support economic development, and encourage redevelopment, the City of Chicago proposed an amendment to the Pilsen TIF to expand the boundaries and amend the redevelopment project costs.

In order to consider an amendment to the Pilsen TIF in which the Original Area would be expanded, Johnson Research Group, Inc. ("JRG") and its subconsultants (collectively, the "Consultants") were engaged to determine whether an irregularly shaped area of approximately 685.2 acres of land located on the Lower West Side of the City of Chicago (the "**City**") and adjacent to the Original Area qualifies for designation as a redevelopment project area based on findings for a "**conservation area**," and/or a "**blighted area**" within the requirements set forth in the Tax Increment Allocation Redevelopment Act (the "**Act**"). The Act is found in Illinois Compiled Statutes, Chapter 65, Act 5, Section 11-74.4-1 *et. seq.* as amended.

The expanded area examined in this report is generally bounded on the north by 16th Street, 17th Street, and 18th Street; on the west by Western Avenue, on the south by Blue Island Avenue, Cullerton Street, 20th Place, and 21st Street, and on the east by Clinton Avenue (hereafter referred to as the "**Added Area**"). The eligibility findings for the Added Area are documented and summarized in this document entitled the *Pilsen Added Area Tax Increment Financing Eligibility Study* (the "**Added Area Eligibility Study**"). This document constitutes a supplement to the Pilsen Tax Increment Financing Redevelopment Project and Plan, as amended, and is an eligibility analysis for the Added Area only. The findings in this document do not change the findings or determination for the original Pilsen TIF Redevelopment Area. The boundaries of the Added Area are shown on **Figure 1. Added Area Boundary**.

The findings and conclusions presented in this report are based on surveys, documentation, and analyses conducted by Johnson Research Group ("JRG" or the "**Consultant**") for the Added Area. The Added Area Eligibility Study summarizes the analyses and findings of JRG's work, which is the responsibility of JRG. The City of Chicago is entitled to rely on the findings and conclusions of this Added Area Eligibility Study in designating the Added Area as a redevelopment project area under the Act. JRG has prepared this Added Area Eligibility Study and the related Redevelopment Project and Plan with the understanding that the City would rely on (i) the findings and conclusions of this Added Area Eligibility Study and the related Amendment No. 4 to the Pilsen Redevelopment Project and Plan, and (ii) the fact that JRG has obtained the necessary information so that the Added Area Eligibility Study and related Redevelopment Plan, as amended, will comply with the Act. The determination of whether the Added Area qualifies for designation as a redevelopment project area based on findings of the area as a conservation area, or a blighted area, or a combination of both, pursuant to the Act is made by the City after careful review and consideration of the conclusions contained in this Added Area Eligibility Study.

The Added Area

The Added Area is located approximately 2 miles southwest of the central business district of the City. The Added Area encompasses most of the land between Western Avenue and I-90, extending roughly from 16th Street to 21st Street, as well as seven blocks east of I-90 between 16th Street and 21st Street.

The Added Area is an improved area which contains 5,125 buildings and 6,140 tax parcels within 167 full and partial tax blocks located in the Lower West Side/Pilsen community area with total land area of 713.1 acres.

The Added Area is predominantly residential, but includes several commercial corridors and isolated industrial areas. The residential areas are characterized by predominantly 2-, 3-, and 4-story multi-family properties interspersed with single family buildings, churches, parks, and school buildings. Commercial uses, which are in many cases the ground floor of mixed-use buildings, can be found along Halsted Street and Racine, Blue Island, Ashland and Western avenues, as well as portions of 18th Street and Cermak Road. Industrial sites are dispersed throughout the Added Area, some of which can be found at 16th Street and Ashland Avenue, Winchester Avenue; along Western Avenue and can be found in smaller quantities throughout the area. Existing land uses in the Added Area are illustrated in ***Figure 2. Existing Land Use.***

The Added Area as a whole is physically characterized by densely built, aging residential properties with some parcels overcrowded with secondary buildings; obsolete commercial properties; and industrial properties, and a notable presence of vacant lots on otherwise improved blocks. The majority of the residential building stock is over 80 years old and consequently requires regular ongoing maintenance to keep up with normal deterioration. In many cases such maintenance is either too expensive to address comprehensively or is neglected, resulting in a high percentage of properties in varying stages of disrepair. Commercial properties are underutilized and obsolete along key corridors. Some storefronts remain vacant or have been repurposed from commercial use to residential use. The industrial sites are characterized by underutilized and deteriorated buildings, old and obsolete structures, poor or nonexistent parking areas.

Summary of Added Area Eligibility

For TIF designation, an improved redevelopment project area must qualify for classification as a conservation area, a blighted area, or a combination of both blighted and conservation areas as set forth in the Act. Surveys and analyses documented in this report indicate that the Added Area is eligible as a conservation area within the requirements of the Act.

The Added Area qualifies as a conservation area under the improved property criteria as set forth in the Act. Specifically,

- Eighty-two percent (82%) of the buildings are 35 years of age or older;
- Four (4) conservation area factors are present to a meaningful extent and reasonably distributed throughout the entire Added Area. These include:
 1. Deterioration
 2. Structures Below Minimum Code Standards
 3. Excessive Vacancies
 4. Inadequate Utilities

Finally, the Added Area includes only real property and improvements that would be substantially benefited from the proposed redevelopment project improvements.

I. BASIS FOR REDEVELOPMENT

The Illinois General Assembly made these key findings in adopting the Act:

1. That there exists in many municipalities within the state blighted and conservation areas;
2. That as a result of the existence of blighted areas and areas requiring conservation, there is an excessive and disproportionate expenditure of public funds, inadequate public and private investment, unmarketability of property, growth in delinquencies and crime, and housing and zoning law violations in such areas together with an abnormal exodus of families and businesses so that the decline of these areas impairs the value of private investments and threatens the sound growth and the tax base of taxing districts in such areas, and threatens the health, safety, morals, and welfare of the public; and
3. That the eradication of blighted areas and the treatment and improvement of conservation areas by redevelopment projects are essential to the public interest.

To ensure that the exercise of these powers is proper and in the public interest, the Act also specifies certain requirements that must be met before a municipality can proceed with implementing a redevelopment project. One of these requirements is that the municipality must demonstrate that a prospective redevelopment project area qualifies either as a blighted area or as a conservation area within the definitions for each set forth in the Act (Section 11-74.4-3).

Blighted areas are defined as: 1) any improved area in which buildings or improvements are detrimental to the public safety, health or welfare because of a combination of 5 or more of the thirteen (13) improved area eligibility factors set forth in the Act; and 2) any vacant area in which its sound growth is impaired by the presence of 1 or more of 7 eligibility criteria set forth in the Act.

Conservation areas are defined in the Act as any improved area in which 50% or more of the structures are 35 years or older and the improved area exhibits the presence of a combination of 3 or more of the thirteen (13) improved area eligibility factors set forth in the Act. Such an area is not yet a blighted area but if left unchecked, the presence of 3 or more such factors which are detrimental to the public safety, health or welfare, such an area may become a blighted area.

Improved Area Eligibility Criteria

Section 11-74.4.3 of the Act defines the thirteen (13) eligibility factors for improved areas. To support a designation as a blighted or conservation area, each qualifying factor must be: (i) present to a meaningful extent and that presence documented so that the City may reasonably find that the factor is clearly present within the intent of the Act and (ii) reasonably distributed throughout the improved part of the Added Area.

1. Dilapidation
2. Obsolescence
3. Deterioration
4. Illegal use of individual structures
5. Presence of structures below minimum code standards
6. Excessive vacancies
7. Lack of ventilation, light, or sanitary facilities
8. Inadequate utilities
9. Excessive land coverage and overcrowding of structures and community facilities
10. Deleterious land-use or layout

11. Lack of community planning
12. Environmental remediation costs have been incurred or are required
13. Declining or lagging rate of growth of total equalized assessed valuation

It is also important to note that the test of eligibility is based on the conditions of the area as a whole; it is not required that eligibility be established for each and every property in the Added Area.

II. ELIGIBILITY SURVEY AND ANALYSIS

An analysis was made of each of the factors listed in the Act for conservation areas and blighted areas to determine whether each or any factors are present in the Added Area, and if so, to what extent and in what locations. Surveys and analyses conducted by JRG included:

1. Exterior survey of the condition and use of all buildings and sites;
2. Field survey of environmental conditions covering streets, sidewalks, curbs and gutters, lighting, traffic, parking facilities, landscaping, fences, and general property maintenance;
3. Analysis of the existing uses within the Added Area and their relationships to the surroundings;
4. Comparison of current land use to current zoning ordinance and the current zoning map;
5. Analysis of original platting and current parcel size and layout;
6. Analysis of vacant parcels and buildings;
7. Analysis of building floor area and site coverage;
8. Review of previously prepared plans, studies and data;
9. Analysis of City of Chicago building permit data for the period from January 2013 through November 2022 and building code violation data for the period from January 2018 through November 2022;
10. Analysis of storm, sanitary sewer lines and water supply lines within the Added Area via existing infrastructure maps provided by the City of Chicago's Department of Water Management;
11. Analysis of Cook County Assessor records for assessed valuations and equalization factors for tax parcels in the Added Area for assessment years 2016 to 2022; and
12. Review of Cook County Treasurer property tax payment records for collection years 2021 to 2023.

A statement of findings is presented for each factor listed in the Act. The conditions that exist and the relative extent to which each factor is present are described below.

A factor noted as "**not present**" indicates either that no information was available or that no evidence could be documented as part of the various surveys and analyses. A factor noted as present to a limited extent indicates that conditions exist that document that the factor is present, but that the distribution or impact of the condition is limited. Finally, a factor noted as present to a meaningful extent indicates that conditions exist which document that the factor is present throughout major portions of the Added Area and that the presence of such conditions have a major adverse impact or influence on adjacent and nearby development.

The following is the summary evaluation of the eligibility factors for the Added Area, presented in the order in which they appear in the Act.

III. IMPROVED AREA ELIGIBILITY FACTORS

The following is the summary evaluation of the eligibility factors for the Added Area presented in the order in which they appear in the Act.

Age

Age is a primary and threshold criterion in determining an area's qualification for designation as a conservation area. For consideration of eligibility as a conservation area, at least 50% of the buildings in the area must be at least 35 years old. Age presumes the existence of problems or limiting conditions resulting from normal and continuous use of structures over an extended period of years. Since building deterioration and related structural problems can be a function of time and climate, structures which are 35 years or older typically exhibit more problems and require greater maintenance than more recently constructed buildings.

Of the 5,125 buildings within the 167 tax blocks, 4,206 (82%) are 35 years of age or more as illustrated in **Figure 3. Age**.

Conclusion: The Added Area meets the required age test for designation as a conservation area. Eighty-two percent (82%) of the buildings within the Added Area exceed 35 years in age.

A. Dilapidation

Section 11-74.4-3 of the Act defines Dilapidation: *An advanced state of disrepair or neglect of necessary repairs to the primary structural components of buildings or improvements in such a combination that a documented building condition analysis determines that major repair is required or the defects are so serious and so extensive that the buildings must be removed.*

This section summarizes the process used for assessing building conditions in the Added Area, the standards and criteria used for evaluation, and the findings as to the existence of dilapidation or deterioration of structures. The building condition analysis is based on a thorough exterior inspection of the buildings and sites conducted from September 2022 through December 2022. Structural deficiencies in building components and related environmental deficiencies in the Added Area were noted during the inspections.

Building Components Evaluated

During the field survey, each component of the buildings in the Added Area was examined to determine whether it was in sound condition or had minor, major, or critical defects. Building components examined were of two types:

Primary Structural

These include the basic elements of any building: foundation walls, load-bearing walls and columns, floors, roof and roof structure.

Secondary Components

These are components generally added to the primary structural components and are necessary parts of the building, including exterior and interior stairs, windows and window units, doors and door units, interior walls, porches and steps, chimneys, and gutters and downspouts.

Criteria for Classifying Defects for Building Components

Each primary and secondary component was evaluated separately as a basis for determining the overall condition of individual buildings. This evaluation considered the relative importance of specific components within a building and the effect that deficiencies in components will have on the remainder of the building.

Building Component Classifications

The four categories used in classifying building components and systems and the criteria used in evaluating structural deficiencies are described below:

Sound

Building components that contain no defects, are adequately maintained, and require no treatment outside of normal ongoing maintenance.

Deficient - Requiring Minor Repair

Building components containing defects (loose or missing material or holes and cracks over a limited area) which often may be corrected through the course of normal maintenance. Minor defects have no real effect on either primary or secondary components and the correction of such defects may be accomplished by the owner or occupants, such as pointing masonry joints over a limited area or replacement of less complicated components. Minor defects are not considered in rating a building as structurally substandard.

Deficient - Requiring Major Repair

Building components which contain major defects over a widespread area and would be difficult to correct through normal maintenance. Buildings in the major deficient category would require replacement or rebuilding of components by people skilled in the building trades.

Critical

Building components that contain major defects (bowing, sagging, or settling to any or all exterior components causing the structure to be out-of-plumb, or broken, loose or missing material and deterioration over a widespread area) so extensive that the cost of repair would be excessive.

Final Building Rating

After completion of the exterior-interior building condition survey, each structure was placed in one of four categories based on the combination of defects found in various primary and secondary building components. Each final rating is described below:

Sound

Sound buildings can be kept in a standard condition with normal maintenance. Buildings so classified have no minor defects.

Deficient

Deficient buildings contain defects that collectively are not easily correctable and cannot be accomplished in the course of normal maintenance. The classification of major or minor reflects the degree or extent of defects found during the survey of the building.

Minor -- one or more minor defect, but no major defect.

Major -- one or more major defects in one of the primary components or in the combined secondary components, but no critical defect.

Substandard

Structurally substandard buildings contain defects that are so serious and so extensive that the building must be removed or major components substantially repaired and/or replaced. Buildings classified as structurally substandard have two or more major defects.

"Minor deficient" and "major deficient" buildings are considered to be the same as "deteriorating" buildings as referenced in the Act; "substandard" buildings are the same as "dilapidated" buildings. The words "building" and "structure" are presumed to be interchangeable.

Exterior Survey

The conditions of the buildings within the Added Area were determined based on observable components. JRG conducted an exterior survey of each building within the Added Area to determine its condition. Three (3) buildings exhibited two or more critical defects to be identified as dilapidated.

Conclusion: Limited Presence of Factor. Dilapidation (structurally substandard buildings) as a factor is present in 3 of the 167 tax blocks in the Added Area.

B. Obsolescence

Section 11-74.4-3 of the Act defines Obsolescence: *The condition or process of falling into disuse. Structures have become ill suited for the original use.*

In making findings with respect to buildings, it is important to distinguish between *functional obsolescence*, which relates to the physical utility of a structure, and *economic obsolescence*, which relates to a property's ability to compete in the market place.

Functional Obsolescence

Historically, structures have been built for specific uses or purposes. The design, location, height, and space arrangement are intended for a specific occupant at a given time. Buildings become obsolete when they contain characteristics or deficiencies which limit their use and marketability after the original use ceases. The characteristics may include loss in value to a property resulting from an inherent deficiency existing from poor design or layout, the improper orientation of the building on its site, etc., which detracts from the overall usefulness or desirability of a property.

Economic Obsolescence

Economic obsolescence is normally a result of adverse conditions which cause some degree of market rejection and, hence, depreciation in market values.

If functionally obsolete properties are not periodically improved or rehabilitated, or economically obsolete properties are not converted to higher and better uses, the income and value of the property erodes over time. This value erosion leads to deferred maintenance, deterioration, and excessive vacancies. These manifestations of obsolescence then begin to have an overall blighting influence on surrounding properties and detract from the economic vitality of the overall area.

Factors of obsolescence may include inadequate utility capacities, outdated building designs, etc.

Obsolescence as a factor should be based upon the documented presence and reasonable distribution of buildings and site improvements evidencing such obsolescence.

Obsolete Building Types

Obsolete buildings contain characteristics or deficiencies that limit their long-term sound use or reuse. Obsolescence in such buildings is typically difficult and expensive to correct. Obsolete building types have an adverse effect on nearby and surrounding development and detract from the physical, functional and economic vitality of the area.

Obsolescence is present to a limited extent in the overall Added Area, but has a notable impact on the commercial corridors as evidenced by conversions of retail storefronts to residential uses. Most of the obsolescence was found in commercial structures that are ill suited for their original

use due to insufficient size (ceiling heights, loading areas), ingress/egress, off-street parking, or mechanical systems.

Functional obsolescence can also be defined as improper land use that reduces a property's usefulness and desirability. Forty-nine (49) structures were identified as obsolete due to outdated land use standards, impacting the highest and best use for the properties. Additionally, obsolescence is partly evidenced with 270 structures by wall or window air conditioning units and outmoded inefficient windows were present in residential and commercial structures. Many of these obsolescent buildings were dispersed throughout the Added Area and have a minor impact on the Added Area as a whole. Nonetheless, as large portions of the Added Area are not affected by these obsolete buildings, the factor cannot be considered "reasonably distributed" within the Added Area. See **Figure 4. Obsolescence**.

Conclusion: Limited Presence of Factor. The analysis indicates that obsolescence is present to a limited extent in 39 of 167 tax blocks. Therefore, obsolescence is not meaningfully present and reasonably distributed throughout the Added Area.

C. Deterioration

Section 11-74.4-3 of the Act defines Deterioration: With respect to buildings, defects including, but not limited to, major defects in the secondary building components such as doors, windows, porches, gutters and downspouts, and fascia. With respect to surface improvements, that the condition of roadways, alleys, curbs, gutters, sidewalks, off-street parking, and surface storage areas evidence deterioration, including, but not limited to, surface cracking, crumbling, potholes, depressions, loose paving material, and weeds protruding through paved surfaces.

Based on the definition given by the Act, deterioration refers to any physical deficiencies or disrepair in buildings or site improvements requiring treatment or repair.

- Deterioration may be evident in basically sound buildings containing minor defects, such as lack of painting, loose or missing materials, or holes and cracks over limited areas. This type of deterioration can be corrected through normal maintenance.
- Deterioration which is not easily correctable and cannot be accomplished in the course of normal maintenance may also be evident in buildings. Such buildings may be classified as minor deficient or major deficient buildings, depending upon the degree or extent of defects. This would include buildings with defects in the secondary building components (e.g., doors, windows, porches, gutters and downspouts, fascia materials, etc.), and defects in primary building components (e.g., foundations, frames, roofs, etc.), respectively.

Deterioration of Sites and Infrastructure

As part of the survey, JRG documented site conditions of streets, sidewalks, lighting and other public infrastructure. Street conditions include potholes and patched pavement scattered throughout the Added Area with heavier concentrations on interior streets such as 18th Place and 21st Street. Broken and uneven sidewalks are prevalent throughout the Added Area, resulting most frequently from the root growth of trees sited within narrow sidewalks and parkways. New street lights have been installed along select streets, standing nearly adjacent to the old streetlights they were intended to replace, with no indication that the old street lights are expected to be removed. Broken, gravel parkways with missing curb and gutters and weed overgrowth are found at several points along the north side of 16th Street railroad embankment. Several alleys exhibit significant deterioration characterized by deep potholes, broken gravel, and in some cases, deteriorating cobblestone.

Deterioration of Buildings

The analysis of building deterioration is based on the survey methodology and criteria described in the preceding section on "Dilapidation." Approximately 2,826 buildings within the Added Area are classified as exhibiting deteriorating conditions. The condition of Deterioration is found in all types of buildings, throughout all portions of the Added Area and is present to a meaningful extent in over 93% of the tax blocks. See ***Figure 5, Deterioration***.

Conclusion: Meaningful Presence of Factor. Building Deterioration is present to a major extent in 155 of the 167 tax blocks and is therefore meaningfully present and reasonably distributed throughout the Added Area.

D. Presence of Structures Below Minimum Code Standards

Section 11-74.4-3 of the Act defines the *Presence of structures below minimum code standards*: All structures that do not meet the standards of zoning, subdivision, building, fire, and other governmental codes applicable to property, but not including housing and property maintenance codes.

As referenced in the definition above, the principal purposes of governmental codes applicable to properties are to require buildings to be constructed in such a way as to sustain safety of loads expected from the type of occupancy; to be safe for occupancy against fire and similar hazards; and/or to establish minimum standards essential for safe and sanitary habitation. Structures below minimum code standards are characterized by defects or deficiencies that threaten health and safety.

As part of its research, JRG documented City of Chicago building code violations during the period from 2018 through November 2022. A total of 3,114 violations were issued by the City to buildings in the Added Area during this period. Of these violations, 1,048 violations were deemed significant by violation type, which includes violations for needed repairs, mechanical issues, pest infestation, structural issues and more. These violations affect 281 buildings in 125 of the 167 tax blocks. In order for a block to have a major, or meaningful, presence of this factor, at least 20% of the buildings on the block must have had one or more open or unresolved code violations. Using this threshold, 60 tax blocks were documented exhibiting a major presence of this factor, with another 65 blocks showing a minor presence of the factor. See ***Figure 6, Buildings Below Minimum Code Standards***.

Conclusion: Meaningful Presence of Factor. The analysis indicates that Structures Below Minimum Code Standards is present to a meaningful extent in 60 of the 167 tax blocks in the Added Area and is reasonably distributed throughout the Added Area.

E. Illegal Use of Individual Structures

Section 11-74.4-3 of the Act defines *illegal use of individual structures*: The use of structures in violation of applicable federal, State, or local laws, exclusive of those applicable to the presence of structures below minimum code standards.

Violation of federal, State or local laws were not evident as part of the exterior field survey conducted as part of this Added Area Eligibility Study.

Conclusion: No Presence of Factor. No condition pertaining to illegal uses of individual structures has been documented as part of the exterior surveys and analyses

undertaken within the Added Area. This factor is not a supporting factor for Added Area eligibility.

F. Excessive Vacancies

Section 11-74.4-3 of the Act defines excessive vacancies: *The presence of buildings that are unoccupied or under-utilized and that represent an adverse influence on the area because of the frequency, extent, or duration of the vacancies.*

Vacancies were observed via field surveys in October and November 2022 and augmented by United States Postal Service vacancy data via an authorized third-party data provider, MelissaData. For purposes of determining the presence of this factor, the factor of excessive vacancies within a block is considered present to a meaningful degree when more than 20% of the commercial units are vacant and present to a limited extent when vacancies represent over 10% but less than 20% of the commercial units.

The overall vacancy rate for the residential uses within the Added Area is just under 4% which is below the 2021 housing vacancy rate of 8.9% for the City as a whole¹. Within the residential blocks, the factor of excessive vacancies is present to a meaningful degree in 4 blocks and a limited extent in 14 blocks.

The occupancy and condition of commercial corridors serve as important indicators of the overall stability and health of the communities they serve. As a result, JRG separately evaluated non-residential vacancies within the key commercial corridors of 18th Street, Cermak Road, Halsted Street, Ashland Avenue, Blue Island Avenue and Western Avenue. Overall, the commercial uses exhibit a vacancy rate of 16.6%, which exceeds the Chicago region's retail vacancy rate of 5.4% per CoStar. This rate reflects a number of the challenges associated with the traditional urban commercial corridor businesses that includes small footprints, limited parking, and competition from larger commercial locations. The corridors also reflect the lingering effects of the Covid-19 pandemic in which retail and service businesses, particularly small businesses, were severely impacted. Using the definitions for determining meaningful and limited presence, excessive vacancies is meaningfully present in the 37 of the 76 commercial corridor blocks, or 49%, and present to a limited extent in 13 blocks. See ***Figure 7, Excessive Vacancies***.

Conclusion: Meaningful Presence of Factor. Excessive vacancies as a factor is present to a meaningful degree in multiple commercial corridors within the Added Area. Because commercial corridors have a larger impact on the neighborhood, this factor is sufficiently present to qualify as a contributing factor of eligibility.

G. Lack of Ventilation, Light, or Sanitary Facilities

Section 11-74.4-3 of the Act defines lack of ventilation, light, or sanitary facilities: *The absence of adequate ventilation for light or air circulation in spaces or rooms without windows, or that require the removal of dust, odor, gas, smoke, or other noxious airborne materials. Inadequate natural light and ventilation means the absence or inadequacy of skylights or windows for interior spaces or rooms and improper window sizes and amounts by room area to window area ratios. Inadequate sanitary facilities refers to the absence or inadequacy of garbage storage and enclosure, bathroom facilities, hot water and kitchens, and structural inadequacies preventing ingress and egress to and from all rooms and units within a building.*

¹ American Community Survey 2021: 5-Year Estimates

An interior inspection of conditions is required to determine the presence of this factor. No such inspection was conducted as part of this Added Area Eligibility Study. Sufficient ingress/egress and the presence of sufficient window openings was present from an exterior field survey.

Conclusion: *No Presence of Factor. No condition pertaining to a lack of ventilation, light, or sanitary facilities has been documented as part of the exterior surveys and analyses undertaken within the Added Area. This factor is not present in the Added Area.*

H. Inadequate Utilities

Section 11-74.4-3 of the Act defines inadequate utilities: *Underground and overhead utilities such as storm sewers and storm drainage, sanitary sewers, water lines, and gas, telephone, and electrical services that are shown to be inadequate. Inadequate utilities are those that are: (i) of insufficient capacity to serve the uses in the redevelopment project area, (ii) deteriorated, antiquated, obsolete, or in disrepair, or (iii) lacking within the redevelopment project area.*

Existing sewer and water supply lines throughout the City were largely put in place 50 to 100 years ago and many are undersized. These aging and/or undersized lines are obsolete by today's development standards and inadequate to accommodate new development.

Review and analysis of the City's water and sewer atlases for the pipes that serve the Added Area indicate that many of the existing lines have already exceeded or will soon exceed their intended life of approximately 100 years. Many of these lines were laid prior to the land uses they currently serve. Water atlases indicated that 34 of the 167 blocks in the Added Area, or 20.4%, are served by water lines that are more than 90 years old. The Added Area's sewer lines are even older and more prevalent throughout the Added Area. Sewer atlases show that 95% of the sewer lines were laid before 1900 (123 years old). Over 96.9% of the sewer lines in the Added Area were placed in service between 1871 and 1922 (from 100 to 151 years old), impacting 158 of the 167 blocks. See **Figure 8. Inadequate Utilities**.

Conclusion: *Meaningful Presence of Factor. Inadequate utilities as a factor impacts 158 of the 167 blocks in the Added Area, and is present to a meaningful extent and reasonably distributed throughout the Added Area.*

I. Excessive Land Coverage & Overcrowding of Structures and Community Facilities

Section 11-74.4-3 of the Act defines excessive land coverage and overcrowding of structures and community facilities: *The over-intensive use of property and the crowding of buildings and accessory facilities onto a site. Examples of problem conditions warranting the designation of an area as one exhibiting excessive land coverage are: the presence of buildings either improperly situated on parcels or located on parcels of inadequate size and shape in relation to present-day standards of development for health and safety and the presence of multiple buildings on a single parcel. For there to be a finding of excessive land coverage, these parcels must exhibit one or more of the following conditions: insufficient provision for light and air within or around buildings, increased threat of spread of fire due to the close proximity of buildings, lack of adequate or proper access to a public right-of-way, lack of reasonable required off-street parking, or inadequate provision for loading and service.*

Excessive land coverage and overcrowding of structures and community facilities is present to a minor extent for 183 structures and 87 of the 167 tax blocks in the Added Area. Most of the overcrowded sites are single family and multi-family residential buildings with accessory dwelling units with almost total lot coverage and no off-street parking.

Conclusion: Limited Presence of Factor. Excessive land coverage and overcrowding of structures and community facilities is not present to a meaningful extent in the Added Area.

J. Deleterious Land Use or Layout

Section 11-74.4-3 of the Act defines deleterious land-use or layout: The existence of incompatible land-use relationships, buildings occupied by inappropriate mixed-uses, or uses considered to be noxious, offensive, or unsuitable for the surrounding area.

While there are a several isolated residential buildings situated adjacent to or in close proximity to industrial uses and sites, the land uses in general are consistent with the Zoning Ordinance and do not result in conflicting or inappropriate mix of uses.

Conclusion: No Presence of Factor. Deleterious land-use or layout has not been documented as present in the Added Area.

K. Lack of Community Planning

Section 11-74.4-3 of the Act defines lack of community planning: The proposed redevelopment project area was developed prior to or without the benefit or guidance of a community plan. This means that the development occurred prior to the adoption by the municipality of a comprehensive or other community plan or that the plan was not followed at the time of the area's development. This factor must be documented by evidence of adverse or incompatible land-use relationships, inadequate street layout, improper subdivision, parcels of inadequate shape and size to meet contemporary development standards, or other evidence demonstrating an absence of effective community planning.

The City of Chicago was incorporated in 1837 and expanded in population and geography well into the 20th century. With the adoption of the Burnham Plan in 1909, the City established a pattern of streets and boulevards on a grid system with residential, commercial and confined industrial areas separated by major rail lines, commercial corridors and the parks connected by green boulevards. The neighborhoods of the Added Area were almost completely built out by the 1930s. The Burnham Plan served as a guiding plan for the development of the Added Area.

Additionally, multiple plans have been recently drafted for the Pilsen community, although some may not have been adopted by the City of Chicago. In 2016, the Great Cities Institute collaborated with Pilsen Planning Committee to develop the Pilsen's Quality of Life Plan. This plan details a strategic vision to encourage community driven economic development. In 2013, The City of Chicago's Department of Planning and Development led an effort to draft the Pilsen & Little Village Action Plan. The adoption of the plan was postponed due to issues surrounding affordable housing and plan implementation. In 2010, the Pilsen Smart Communities Plan was drafted through the Local Initiatives Support Corporation's New Communities Program. This program has successfully supported comprehensive community planning in 16 Chicago neighborhoods. These plans have provided guidance for community planning in the Added Area.

Conclusion: No Presence of Factor. The factor lack of community planning is not present in the Added Area.

L. Environmental Remediation

Section 11-74.4-3 of the Act defines environmental remediation: The area has incurred Illinois Environmental Protection Agency or United States Environmental Protection Agency remediation costs for, or a study conducted by an independent consultant recognized as having expertise in environmental remediation has determined a need for, the clean-up of hazardous waste, hazardous substances, or underground storage tanks required by State or federal law, provided that the remediation costs constitute a material impediment to the development or redevelopment of the redevelopment project area.

The Added Area does not contain any properties or Long-term Cleanup Sites on the United States Environmental Protection Agency's Region 5 Superfund website but contains eight properties with incidents as reported on the Leaking Underground Storage Tanks ("LUST") database maintained by the Illinois Environmental Protection Agency's Leaking Incident Database.

Conclusion: Minor Presence of Factor. There exist only limited conditions in thirty-three scattered sites in the Added Area pertaining to a need for environmental remediation, as documented in the Illinois Environmental Protection Agency's Leaking Incident Database.

M. Declining or Lagging Equalized Assessed Valuation

Section 11-74.4-3 of the Act defines declining or lagging equalized assessed valuation: The total equalized assessed value of the proposed redevelopment project area has declined for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the balance of the municipality for 3 of the last 5 calendar years for which information is available or is increasing at an annual rate that is less than the Consumer Price Index for All Urban Consumers published by the United States Department of Labor or successor agency for 3 of the last 5 calendar years for which information is available.

Over the period from 2016 to 2021, the growth rate of the total equalized assessed valuation (EAV) of the Added Area has lagged behind the remainder of the City for two years and exceeded the growth of the City for three of the last five years. These figures are shown below in **Table 1. Growth of Added Area vs. Remainder of City of Chicago.**

Table 1. Growth of Added Area vs. Remainder of City of Chicago

Year	Added Area EAV	Percent Change	EAV of Remainder of City of Chicago	Percent Change	Slower than City Growth?
2017	381,890,409		76,387,064,891		
2018	450,909,879	18.07%	85,884,972,054	12.43%	No
2019	456,878,360	1.32%	87,368,791,989	1.73%	YES
2020	467,709,982	2.37%	89,056,420,184	1.93%	No
2021	677,655,397	44.89%	96,240,804,798	8.07%	No
2022	667,211,208	-1.54%	96,228,304,302	-0.01%	YES

2017 to 2022 is the most recent five year period for which data is available for the Added Area and the City.

Percent Change reflects the annual growth in EAV from the prior year (e.g. -1.54% change in Added Area EAV for Year 2022 represents the increase in EAV from 2021 to 2022).

Conclusion: Factor is Not Present. The EAV of the Added Area did not decrease or lag behind City EAV growth in three or more of the last five years. As a result, Declining or Lagging EAV is not a contributing factor for eligibility.

IV. DETERMINATION OF ADDED AREA ELIGIBILITY

The Added Area meets the requirements of the Act for designation as a conservation area.

A. Age

The Added Area meets the threshold criteria which requires that 50% or more of buildings be 35 years of age or older. Eighty-two percent (82%) of the Added Area's buildings are 35 years of age or older.

B. Conservation Area Criteria

The meaningful presence and reasonable distribution of a minimum of three (3) of the thirteen (13) factors set forth in the Act are required for an Added Area to qualify for designation as a conservation area. The analysis of the Added Area found a meaningful presence and a reasonable distribution of four (4) factors throughout the Added Area, including:

1. Deterioration
2. Structures Below Minimum Code Standards
3. Excessive Vacancies
4. Inadequate Utilities

The summary of conservation area factors is documented on a block-by-block basis in **Table 2: Distribution of Conservation Area Factors**.

The eligibility findings presented in this report indicate that the Added Area is in need of revitalization and guided growth to ensure that it will contribute to the long-term physical, economic, and social well-being of the City. The Added Area contains properties and buildings of various sizes and design that are advancing in obsolescence and deterioration and experiencing high levels of City building code violations. The water and sewer infrastructure is largely in need of comprehensive upgrades throughout the Added Area. These conservation factors, as identified and described in detail above, indicate that the Added Area as a whole has not been subject to growth and development through investment by private enterprise, and would not reasonably be anticipated to be developed without public action.

Table 2. Distribution of Conservation Area Factors

Blocks	# of Parcels	# of Buildings	Age	Dilapidation	Obsolescence (Conversion)	Deterioration	Illegal Use of Structures	Structures below min. code	Excessive Vacancies - R	Excessive Vacancies - C	Lack of ventilation, light, or sanitary facilities	Inadequate utilities	Excessive land coverage / overcrowding	Deleterious Land Use or Layout	Lack of community Planning	Environmental remediation	Declining or lagging EAV
17-19-300	35	29	90%	○		●		●				●
