NARRATIVE AND PLANS
TYPE I Rezoning Attachment
1114 West Grand Avenue
From M1-2 to B2-3

The Property

The subject property consists of a site area of 2,765 square feet and is improved with: A two-story building in the front with ground floor commercial space and one residential dwelling unit on the second floor, and a rear two-story brick building containing two residential dwelling units. The Applicant seeks to rezone the property under a Mandatory Type 1 Map Amendment to allow for interior remodeling and to convert the property from a non-conforming to a conforming use. There are three existing residential dwelling units, approximately 1,374 square feet of vacant ground floor commercial space, and no automobile parking spaces. The height of the front and rear buildings will remain thirty-two feet and twenty-four feet, respectively.

The area is comprised of varying zoning districts including B2-2, B2-3, B3-5, RT-4 RM-5, C1-5, C2-2, C2-3, M1-2 and M2-2. The area is improved with residential and commercial buildings ranging from one-to-five stories.

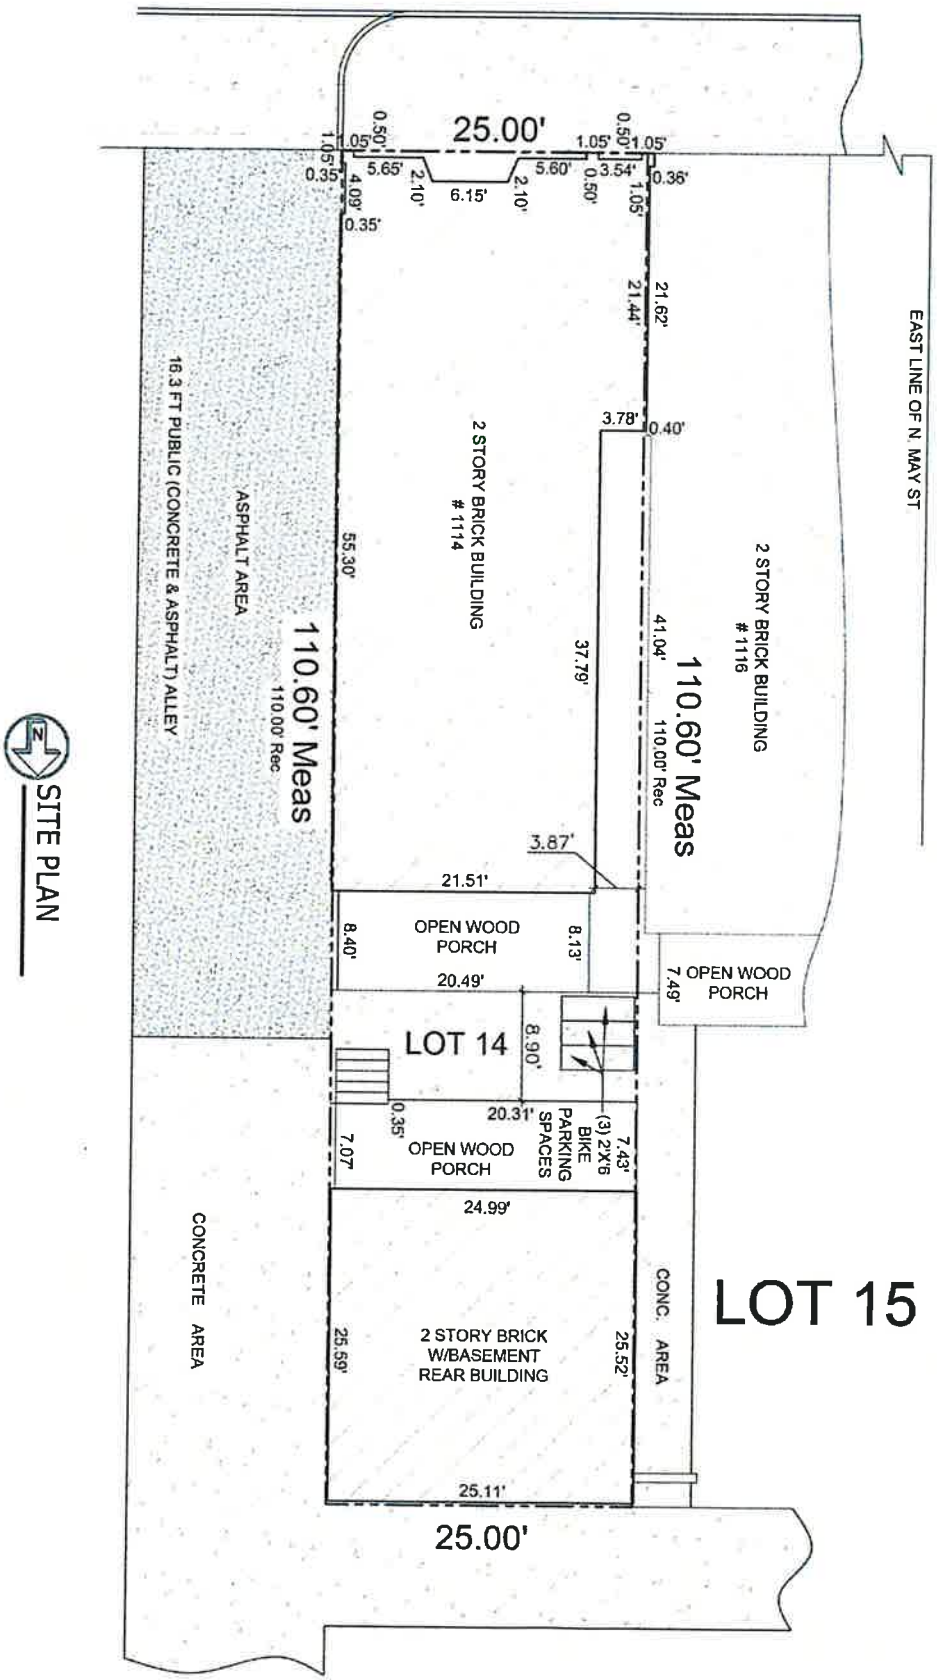

The property is also a Transit Served Location per the Transit Oriented Provisions of the Chicago Zoning Ordinance, Section 17-10-0102-B (1), as it is within 1,966 feet of the CTA blue line train entrance.* Accordingly, the property qualifies for a parking reduction under the Transit Served provision of the Zoning Ordinance, and is subject to the maximum limitation on parking, equal to one space per two units under 17-3-0308 (4). In addition, the property is identified under the Transit Friendly Guide station topography as Major Activity Center, which provides that development has increased density, height, and lower parking ratios.

Applicant also seeks variations under Section 17-13-0303-D: 1) to reduce the maximum required automobile parking spaces from 2 spaces to 0 spaces under Sections 17-13-1003-EE and 17-13-1101-A; 2) to allow a 25% reduction in the required amount of transparent window area under Sections 17-13-1003-Q and 17-13-1101-A; and 3) to reduce the rear-yard setback from the required 30 feet to zero feet under section 17-13-1101-B.

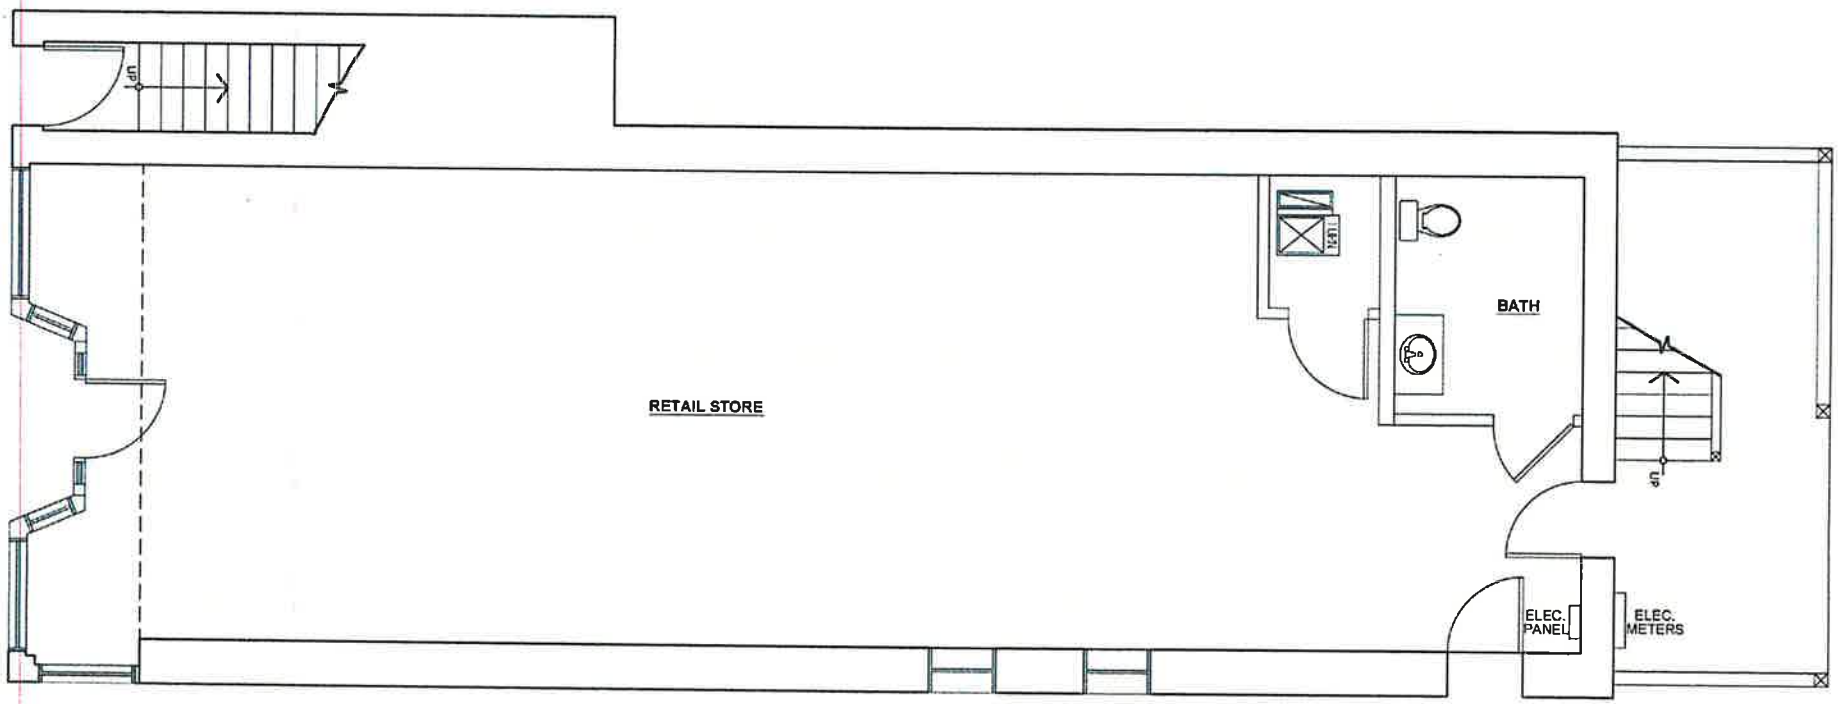

The following are the relevant zoning parameters for the proposed project:

Lot Area:	2,765 sq. ft.
Floor Area:	5,400 sq. ft.
FAR:	1.95
Residential Dwelling Units:	3
MLA Density:	921
Height (existing):	32.16' (front), 24.58' (rear)
Automobile Parking:	0
Bicycle Parking:	0
Setbacks (existing):	Front (Grand): 0.00' North (Alley): 0.00' East (Alley): 0.00' North: 0.00'
