

RESOLUTION

WHEREAS, The trend of Teen Takeovers in American cities has been escalating at an unprecedented and alarming rate in recent years, highlighting the urgent need for greater attention and action; and,

WHEREAS, During these Takeover events, participants arrive at these unauthorized gatherings by various means of transportation, including but not limited to Electric Scooters, most of which are rented through phone applications; and,

WHEREAS, In recent years, the use of electric scooters has surged across public thoroughfares in major urban centers, including the streets, alleys, and sidewalks within the City of Chicago. This escalating trend reflects the increasing popularity and adoption of alternative transportation modes among residents and visitors alike; and,

WHEREAS, Given this increase in usage, especially among the city's youth, it is in the City's interest to prevent the movement of Scooters in restricted zones, such as the area surrounding a Teen Takeover; and,

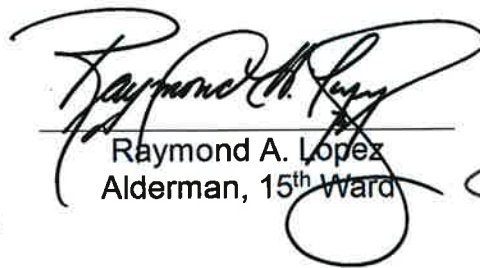

WHEREAS, Geofencing is defined as follows; An invisible, virtual boundary around a real-world geographic area using GPS, Wi-Fi, or cellular data. When a mobile device or tracking tag crosses this perimeter, the system triggers a pre-programmed action, such as a smartphone push notification, an automated alert, or a security measure; and,

WHEREAS, Electrical scooters can be equipped with advanced GPS air tags to precisely track and monitor the vehicle's location at all times. Utilizing sophisticated geofencing technology, the system can immediately and automatically shut off the vehicle if it enters a designated GPS zone; and,

WHEREAS, In the event of a Teen Takeover, it would be possible for the Chicago Police Department to provide Electronic Scooter Rental companies with a designated zone in which they could restrict through geofencing; and,

BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF CHICAGO, That we, the Members of the City Council of Chicago, call upon the Committee on Public Safety to convene a public hearing on the potential usage of Geofencing by the Chicago Police Department and Electronic Scooter Rental Companies.

BE IT FURTHER RESOLVED BY THE CITY COUNCIL OF THE CITY OF CHICAGO,
That various subject matter experts, including relevant members of the Chicago Police
Department and the Office of Emergency Management and Communications. As well as
employees of the following Electronic Scooter Rental Companies: Divvy, Lime, Bird,
Spin, and Uber be invited to testify before the Committee on Public Safety to share their
opinions on the subject matter.
